PIECES	STEPS	KINDS OF PIECE

An unofficial fan build. All standard pieces; any similar colour works. Every stud is checked. LEGO is a trademark of the LEGO Group, which does not sponsor this site.

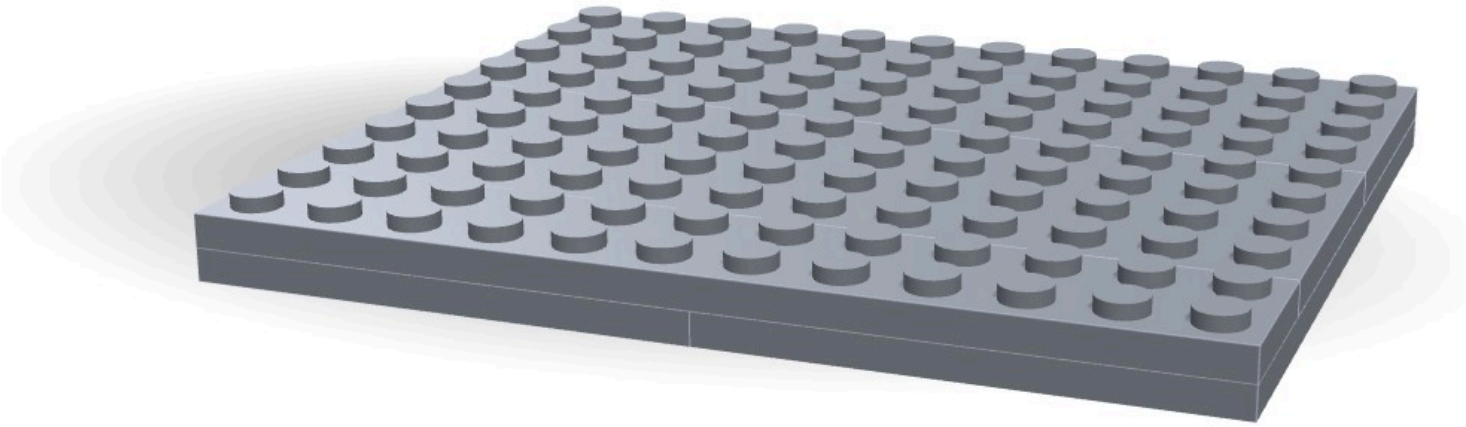

STEP

1

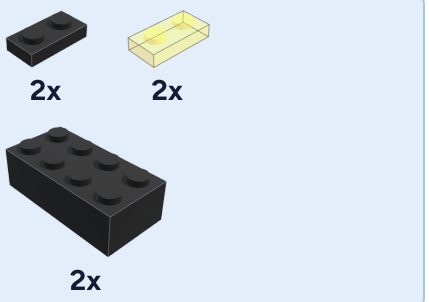

Stage base

Two dark bluish gray 6×10 plates side by side, then three long plates across them, so the seam is bridged.

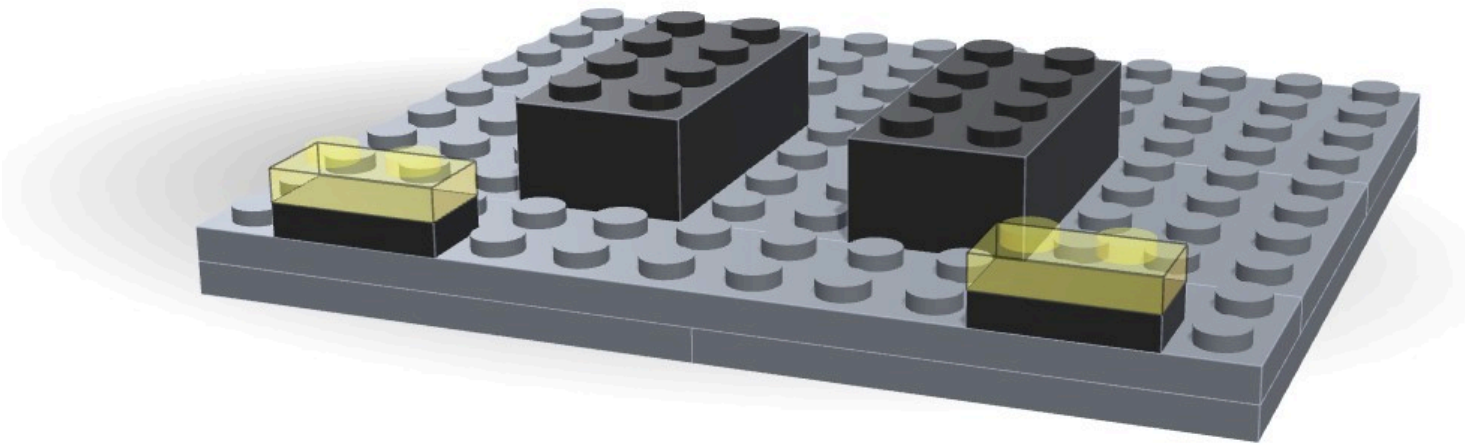

STEP

2

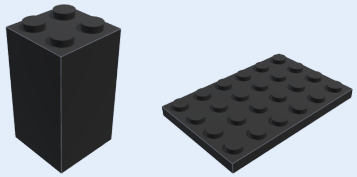

Footlights and shoes

A black 1×2 plate at each front corner with a trans-yellow plate on top: the stage lights. Then the two black shoes, toes forward.

STEP

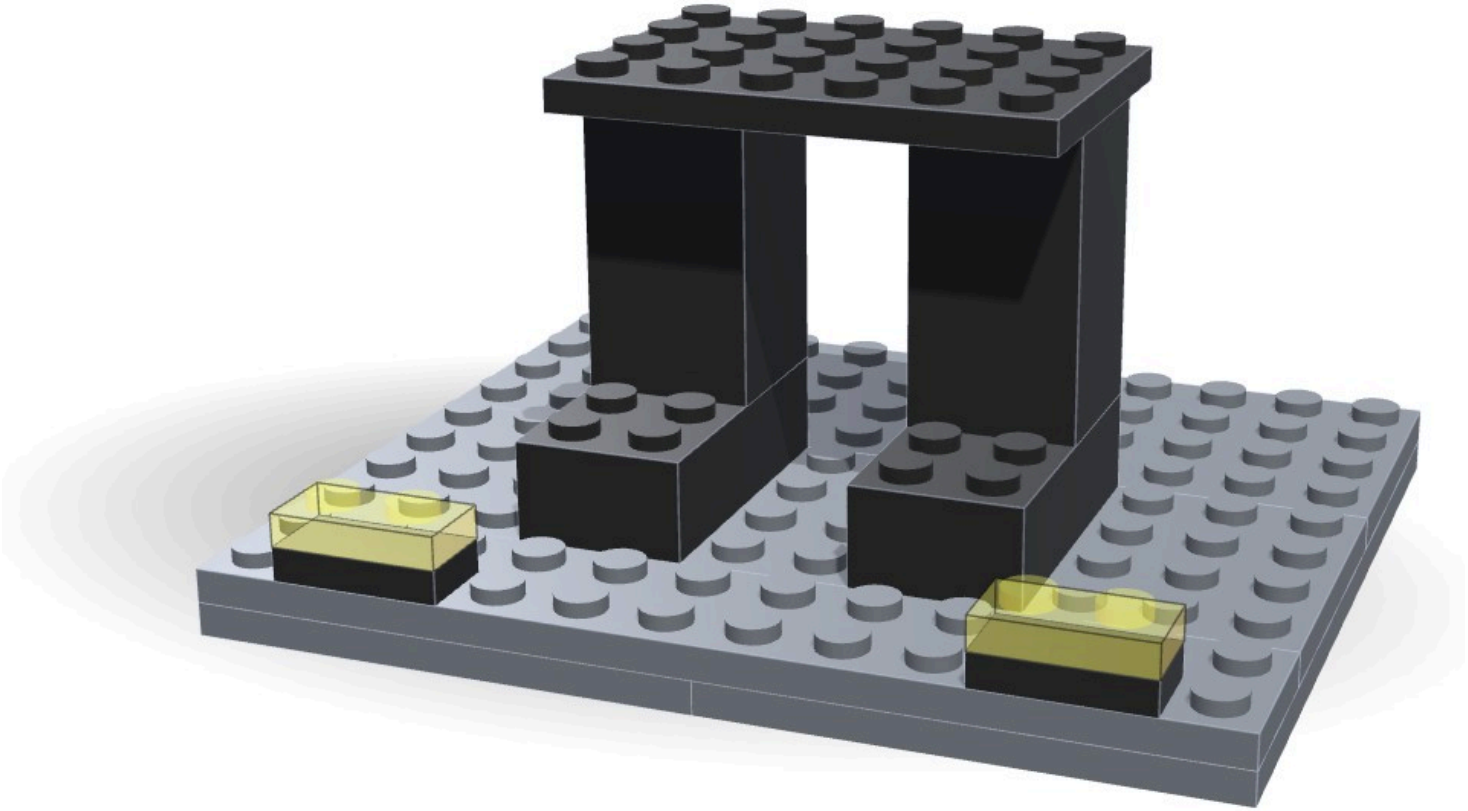

3

2x 1x

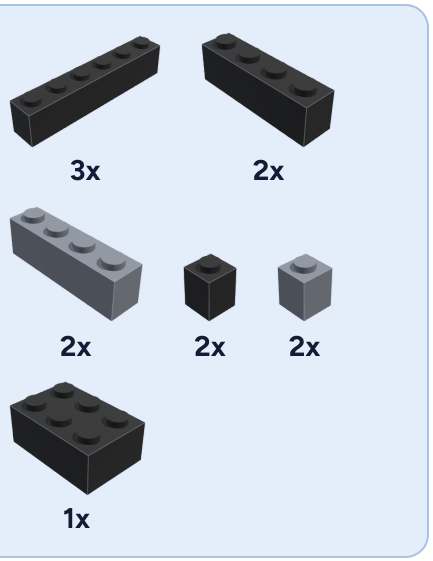

Legs

Three black 2×2 bricks on the back of each shoe, then the 4×6 plate that ties both legs together at the hips.

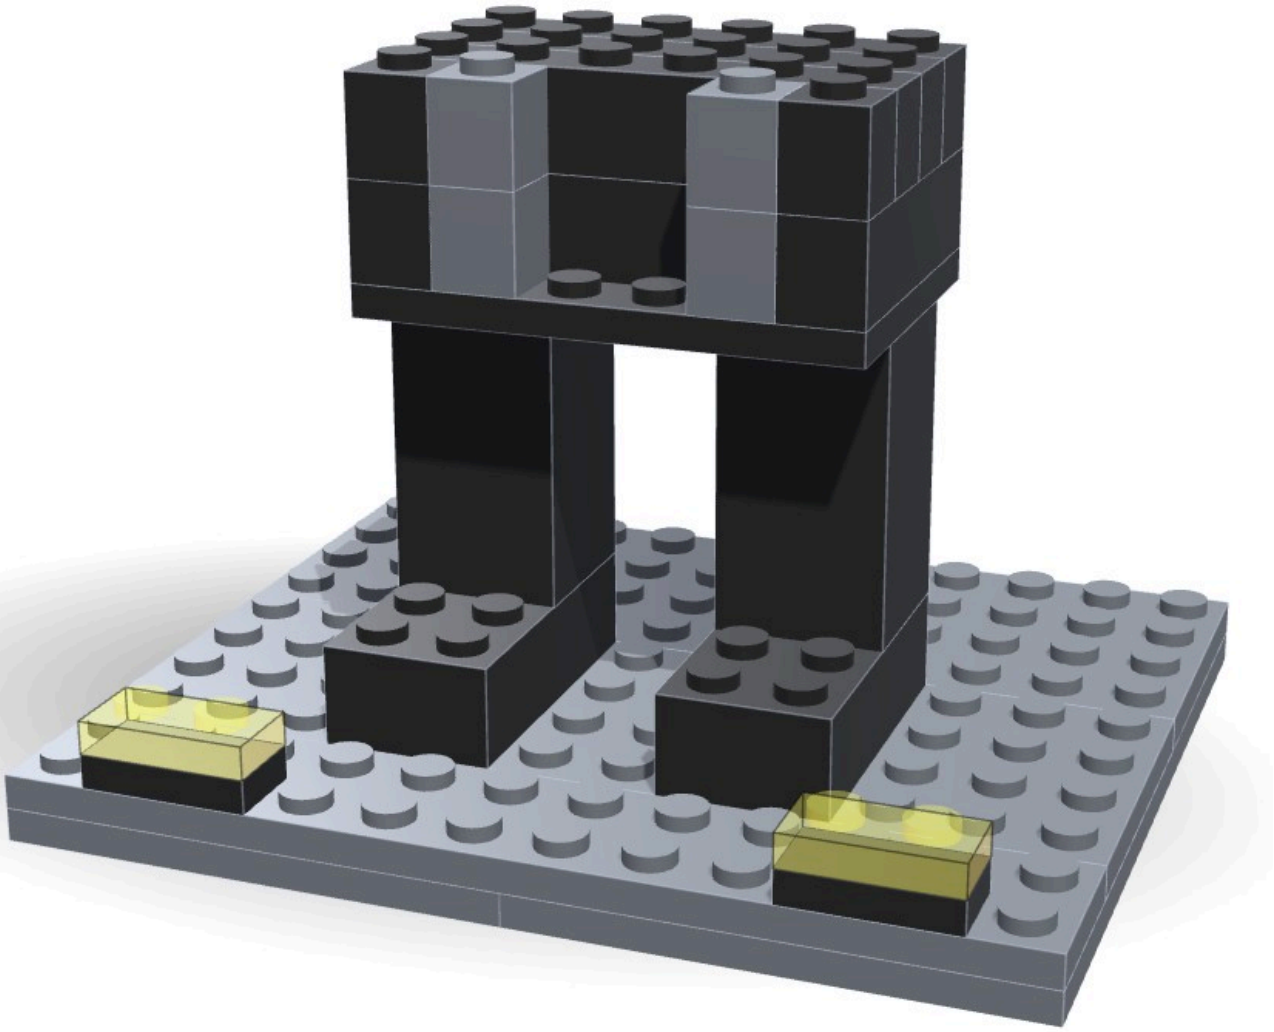

STEP

4

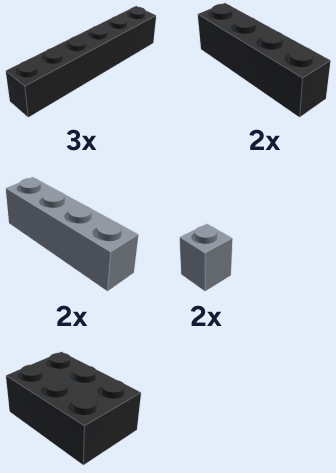

Jacket, lower half

Front-to-back bricks first, with a dark bluish gray 1×4 either side of the middle. Then a course across, leaving the front of the middle open: that gap is the T-shirt.

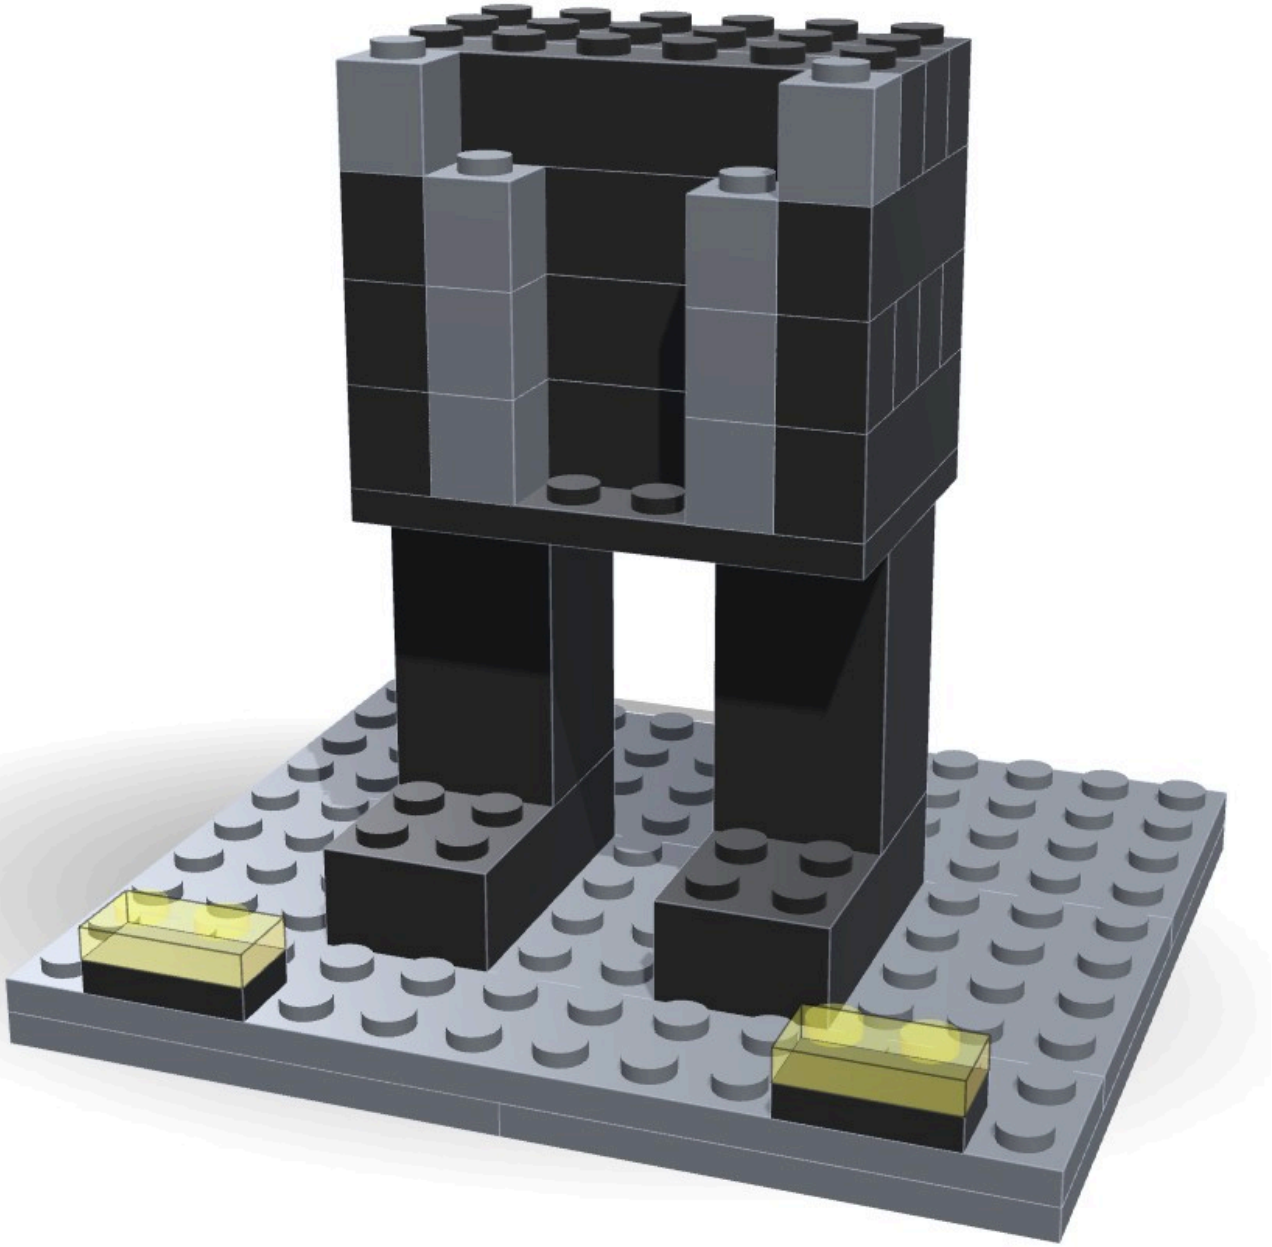

STEP

5

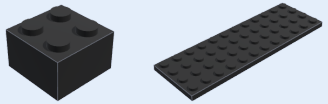

Jacket, upper half

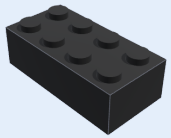

The same front-to-back course again, then the last course across with the front open four studs wide and a gray 1×1 at each corner: the gray edges step out into the V of the lapels.

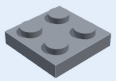

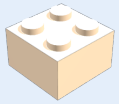

STEP

6

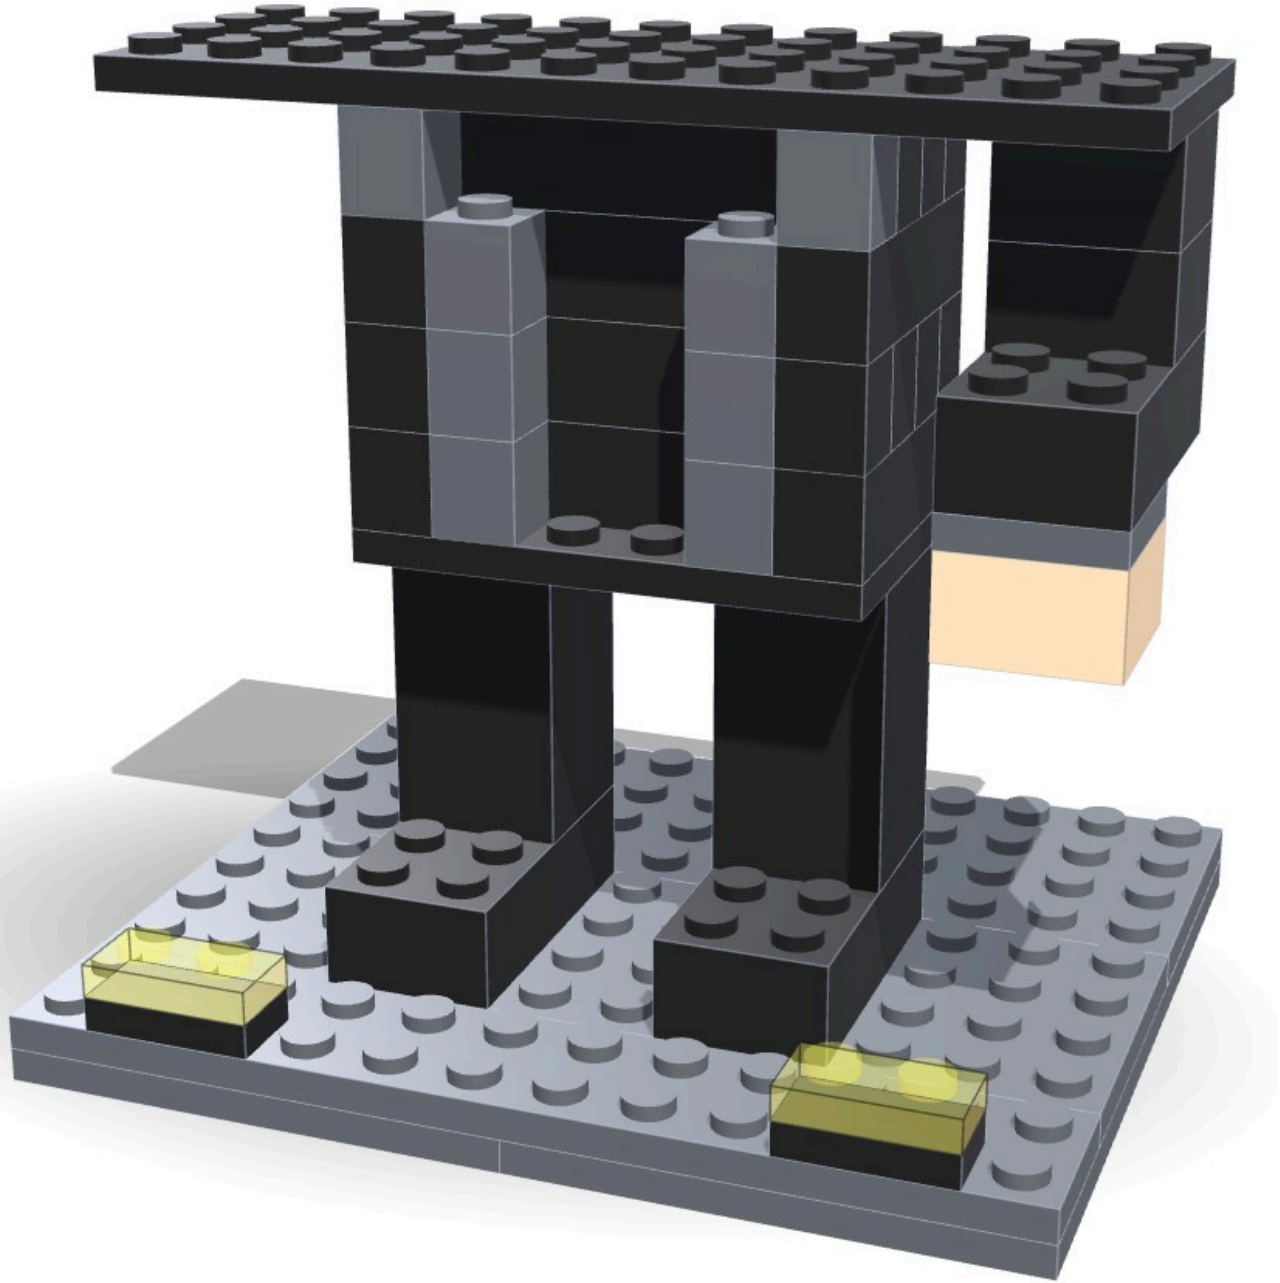

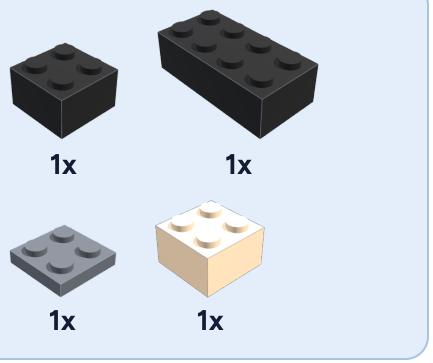

Shoulders and left arm

The black 4×12 plate across the shoulders. Under its left end hang two black 2×2 bricks, a 2×4 forearm pointing forward, a dark bluish gray cuff and the hand.

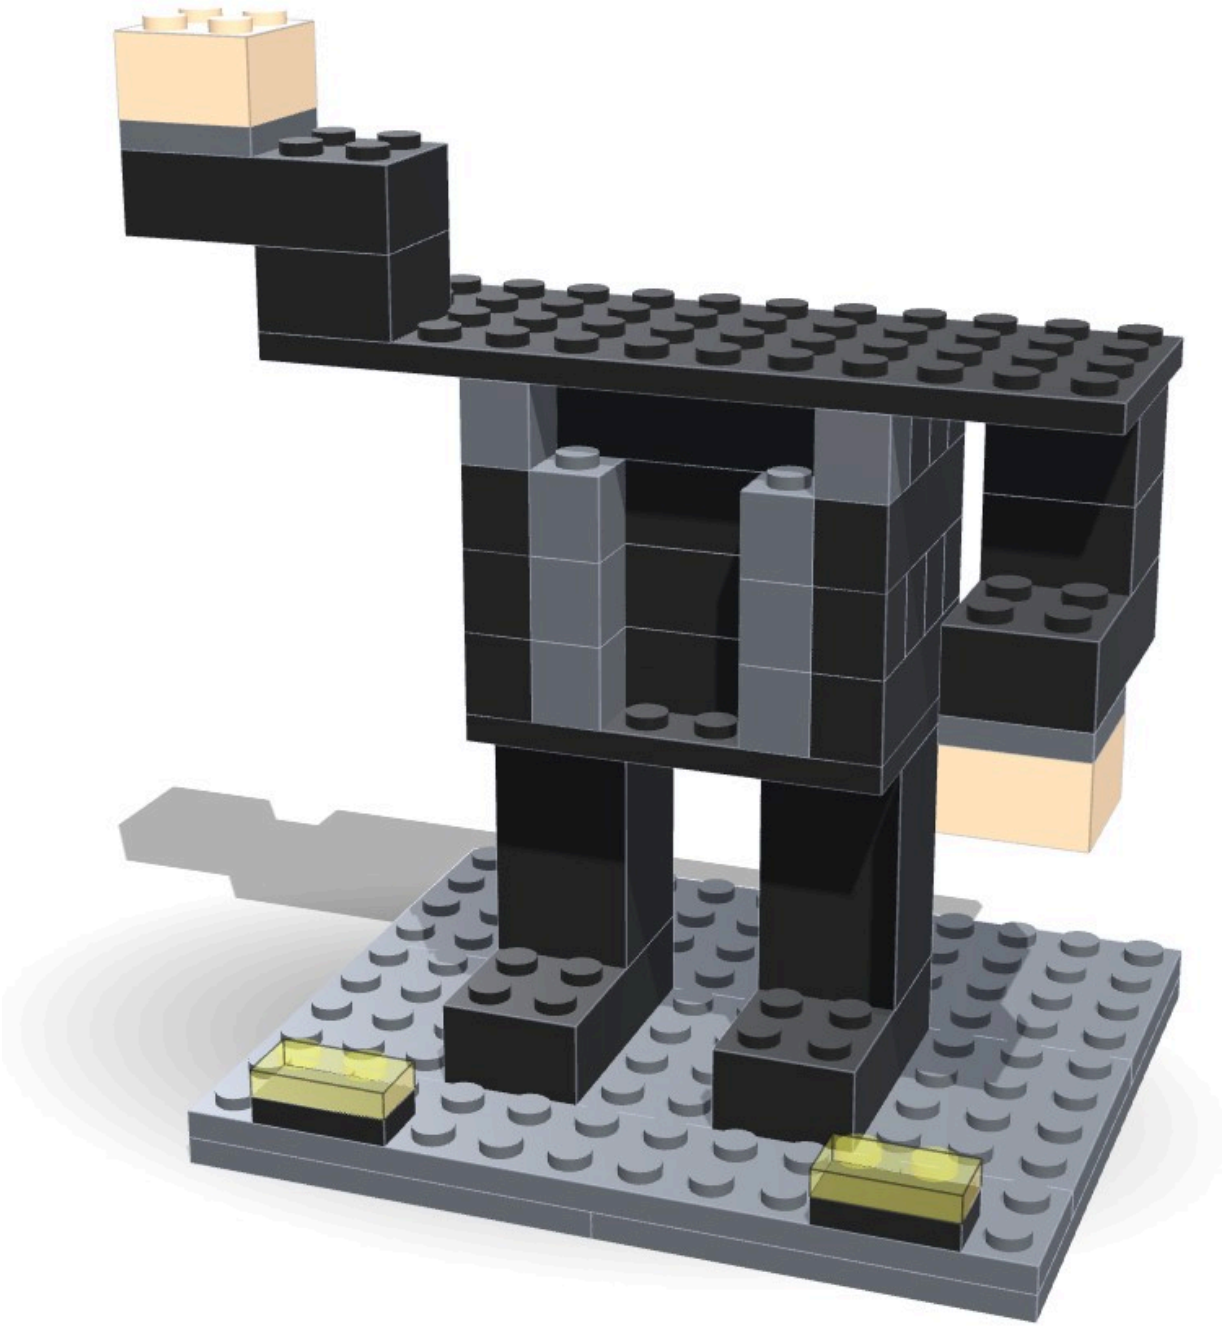

STEP

7

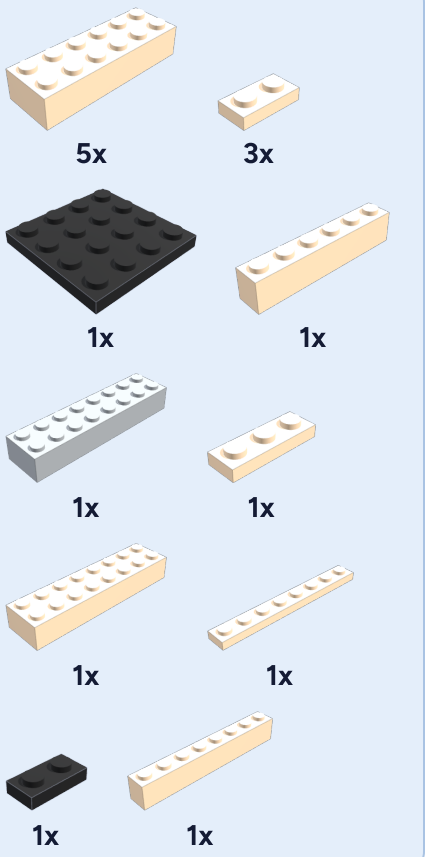

Right arm, raised

On the right end of the shoulder plate: a black 2×2 brick, then a 2×4 brick that takes the elbow out to the side, the gray cuff and the hand.

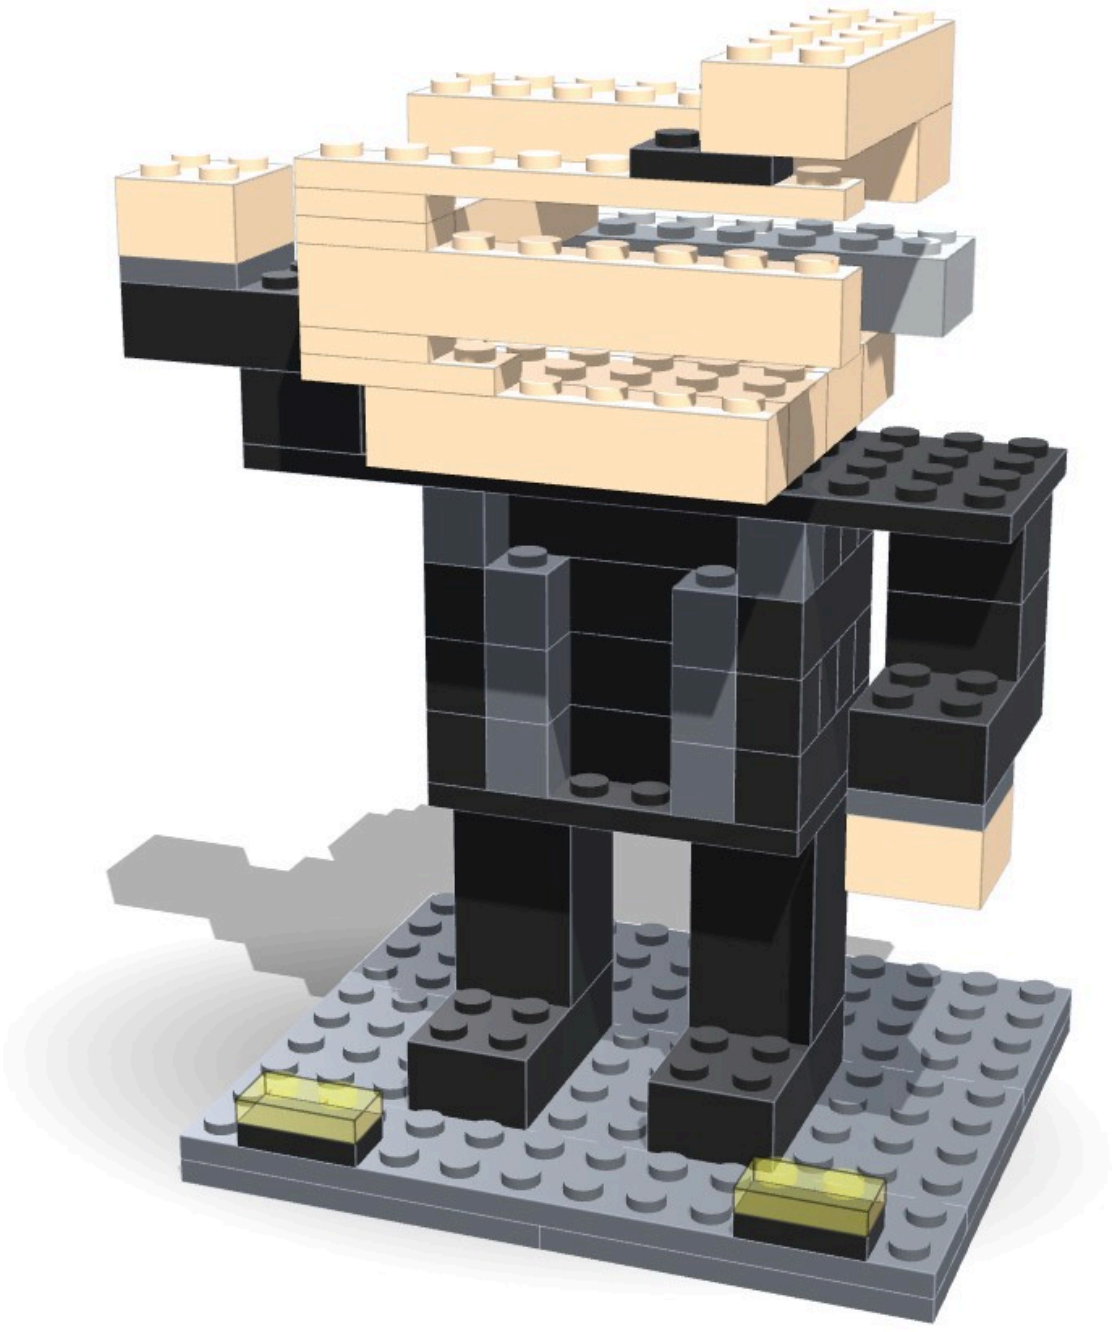

STEP

8

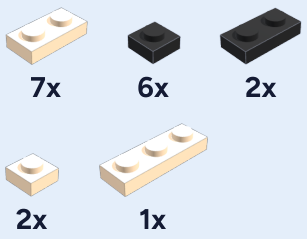

Collar and jaw (1/2)

A black 4×4 plate for the collar, then the light nougat jaw: three 2×6 bricks and a 1×6 at the front.

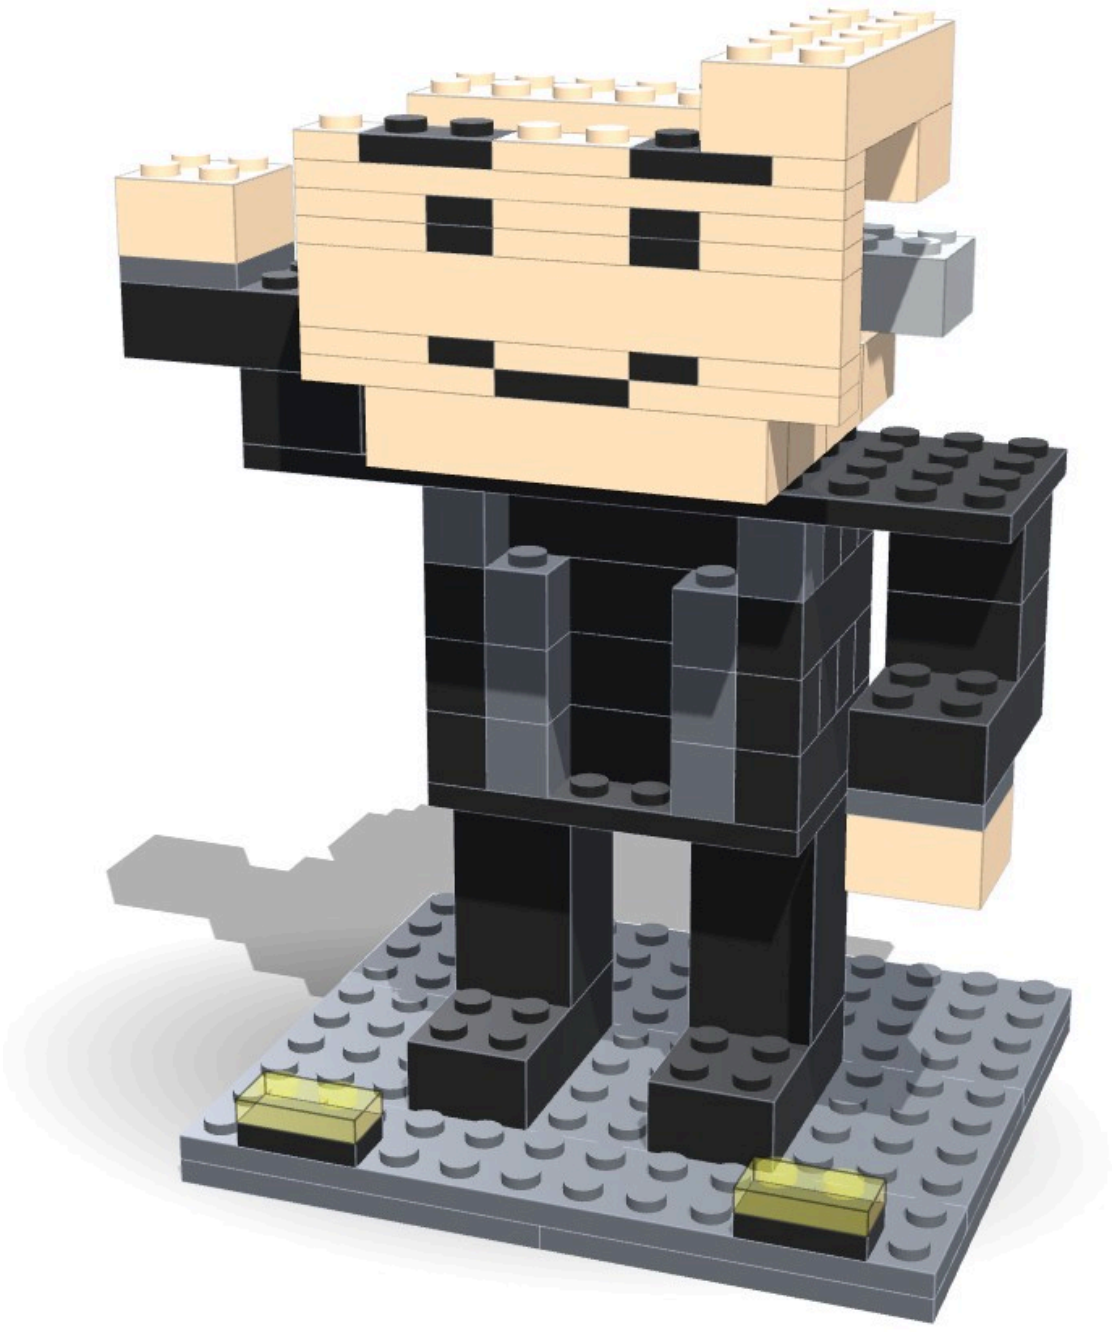

STEP

9

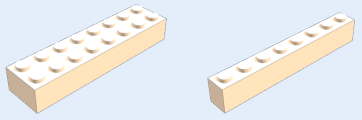

Collar and jaw (2/2)

More of the same: a black 4×4 plate for the collar, then the light nougat jaw: three 2×6 bricks and a 1×6 at the front.

STEP

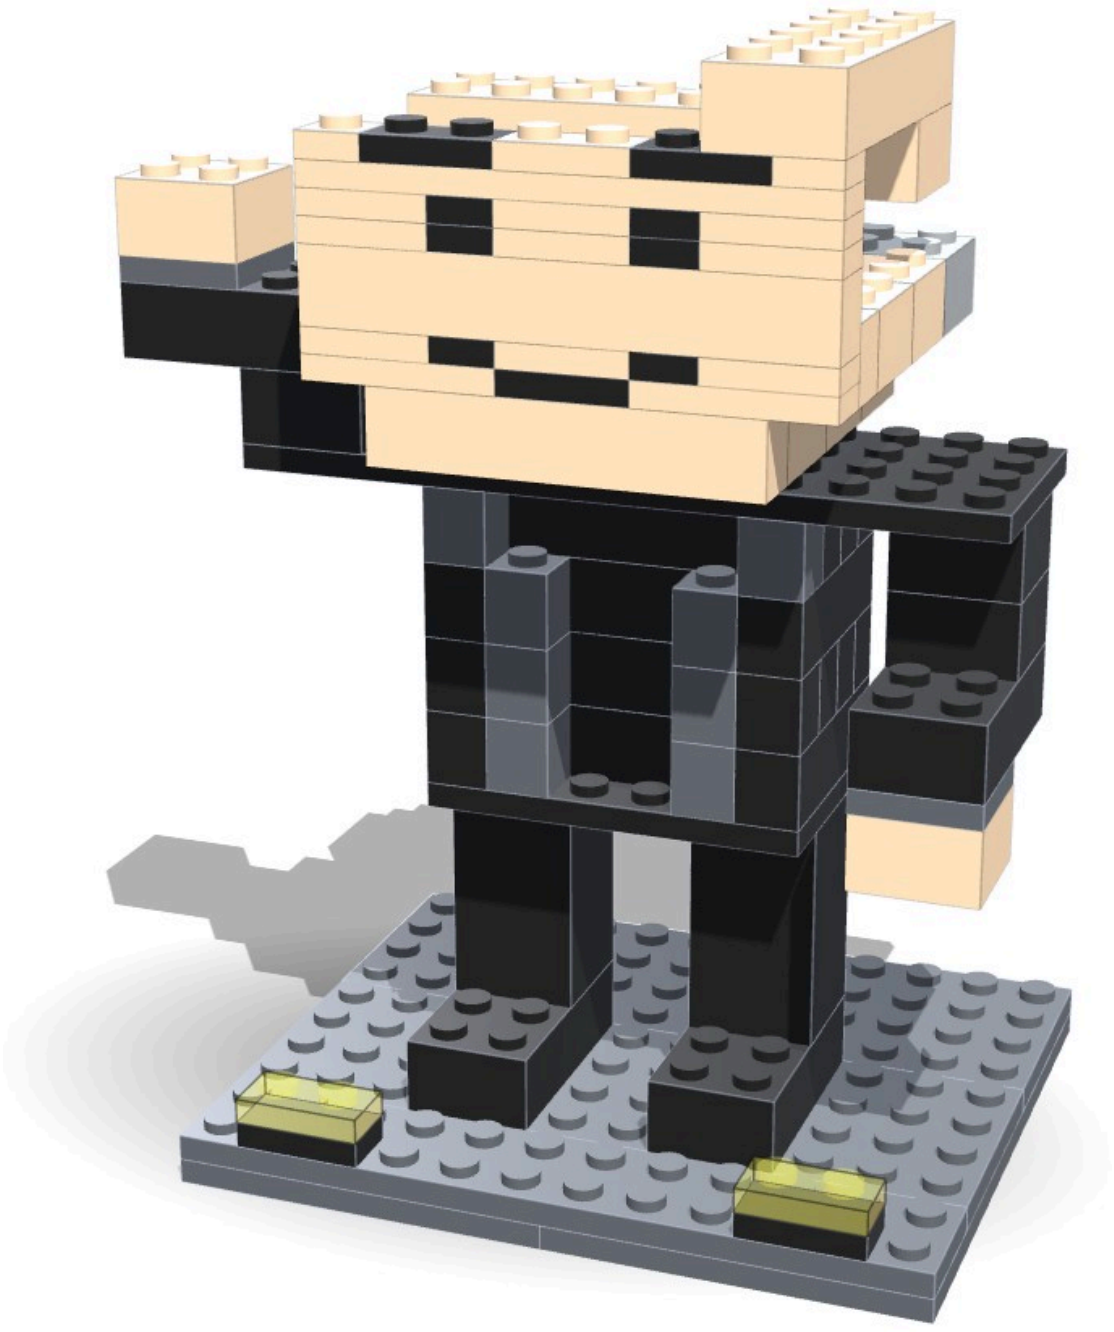

10

2x 1x

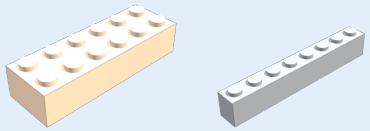

Smile

Bricks across the head, light bluish gray at the back for the hair. On the front row, plates: a black 1×2 in the middle, then a black 1×1 either side one plate higher. That is the smile.

STEP

11

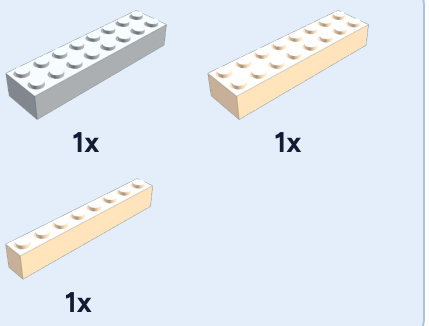

Cheeks and eyes

Front-to-back 2×6 bricks behind the face, with the hair at the back. In front: two plain plates for the cheeks, then the eye row with a black 1×1 either side.

STEP

12

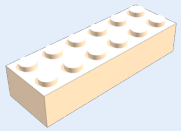

Eyes and brows

A second black plate on each eye, a plain plate, then the brows: a black 1×2 over each eye.

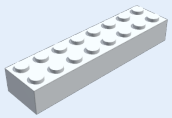

STEP

13

3x

1x

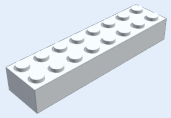

Forehead

Four light nougat 2×6 bricks front to back lock the whole face together; a light bluish gray 2×8 closes the back of the head.

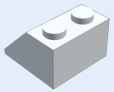

STEP

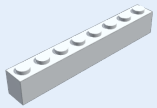

14

7x

4x

2x

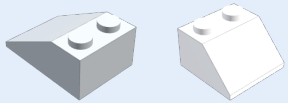

Hair

Light bluish gray from the hairline up: four 2×8 bricks front to back and a 1×8 that sticks out one stud at the back, then a course across with slopes rounding off the back of the head.

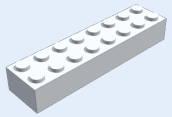

STEP

15

4x

4x

1x

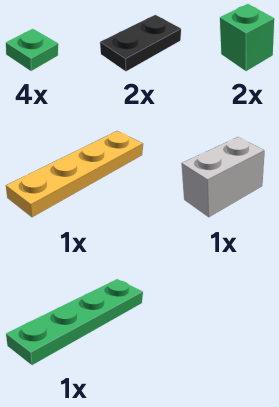

Top of the hair

On top: long slopes falling to the back, a 2×8 brick across the crown, and white 2×2 slopes at the front for the silver sweep back from the forehead.

STEP

16

The chip

A generic board, built as a little wall on top of his right hand: gold contacts at the bottom, green round the edge, a black chip with a silver die in the middle.

Parts list

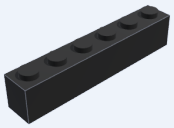

127 pieces, 38 kinds. Any similar colour works.

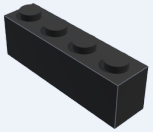

7x
