Arms

Hang the right arm from the shoulder: a black sleeve and two light nougat bricks. On the left, the forearm comes forward and the hand rises.

STEP

9

The head starts with a light nougat plate on the neck, then the jaw and a nougat mouth on the front row. The ears start at the sides.

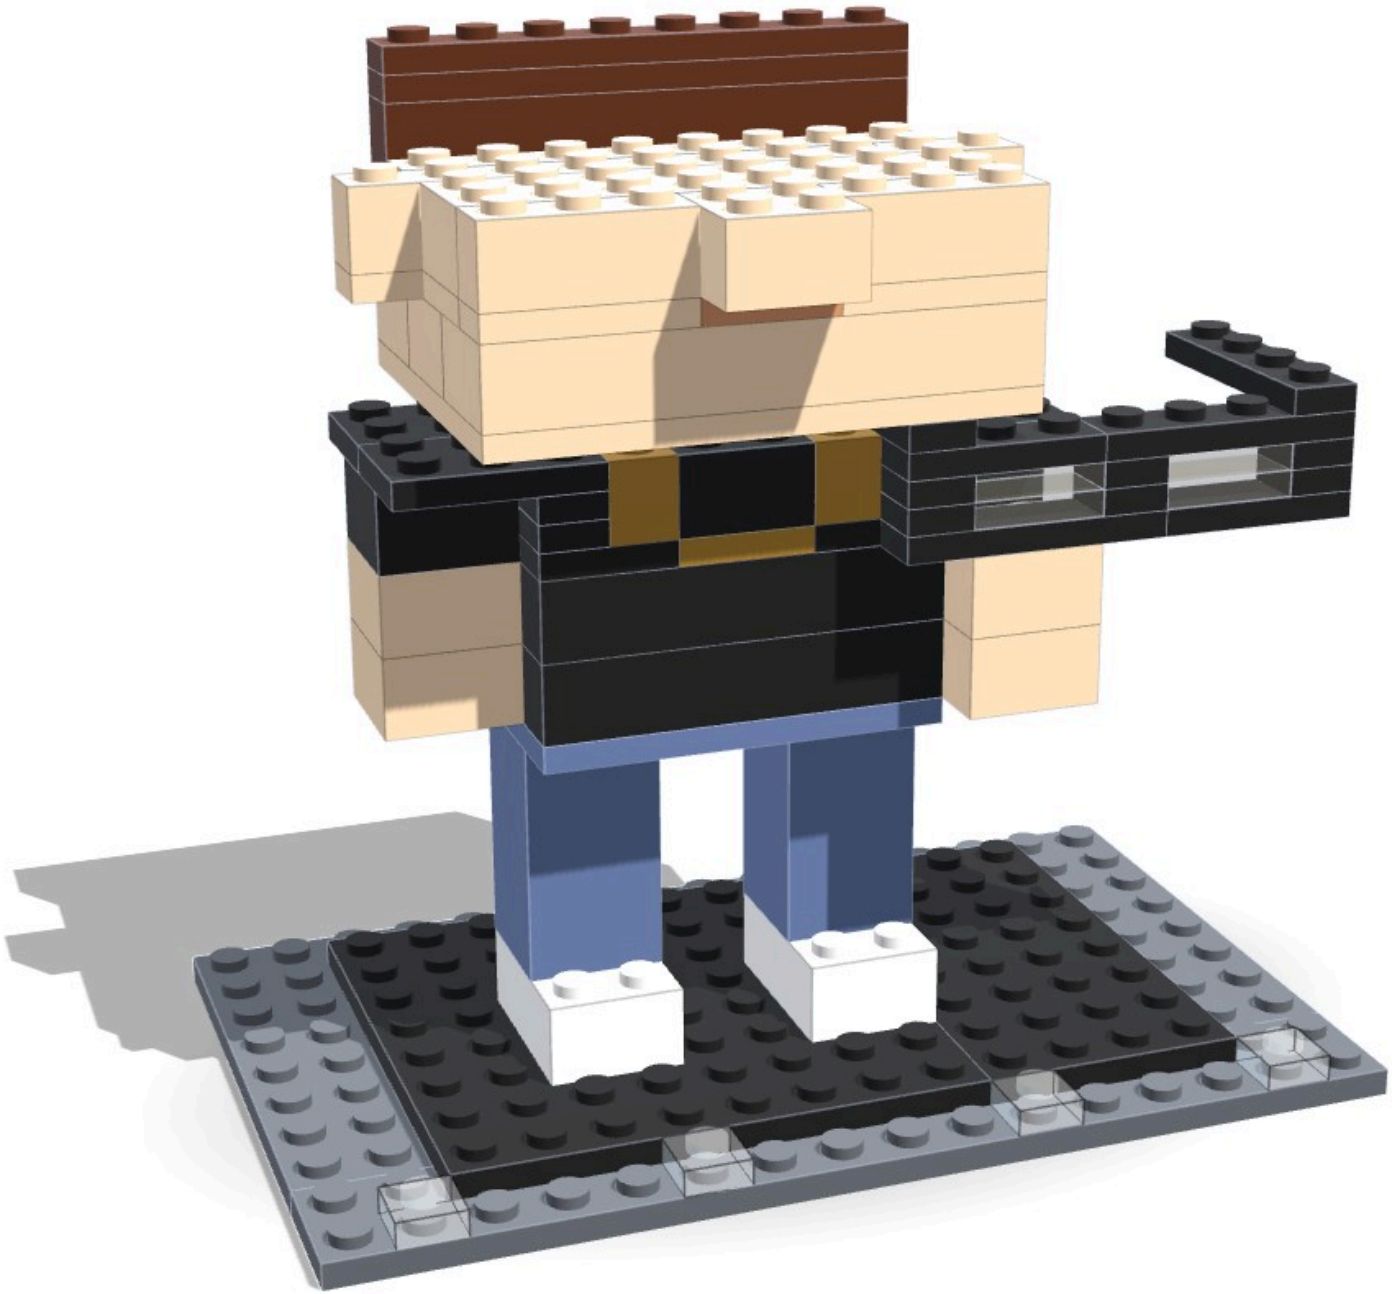

STEP

10

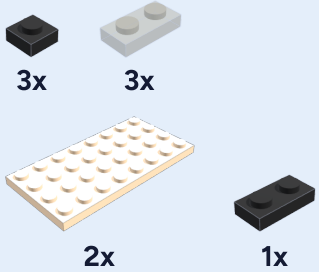

Nose and ears

A course of bricks with a 2×2 nose that stands one stud out from the face.

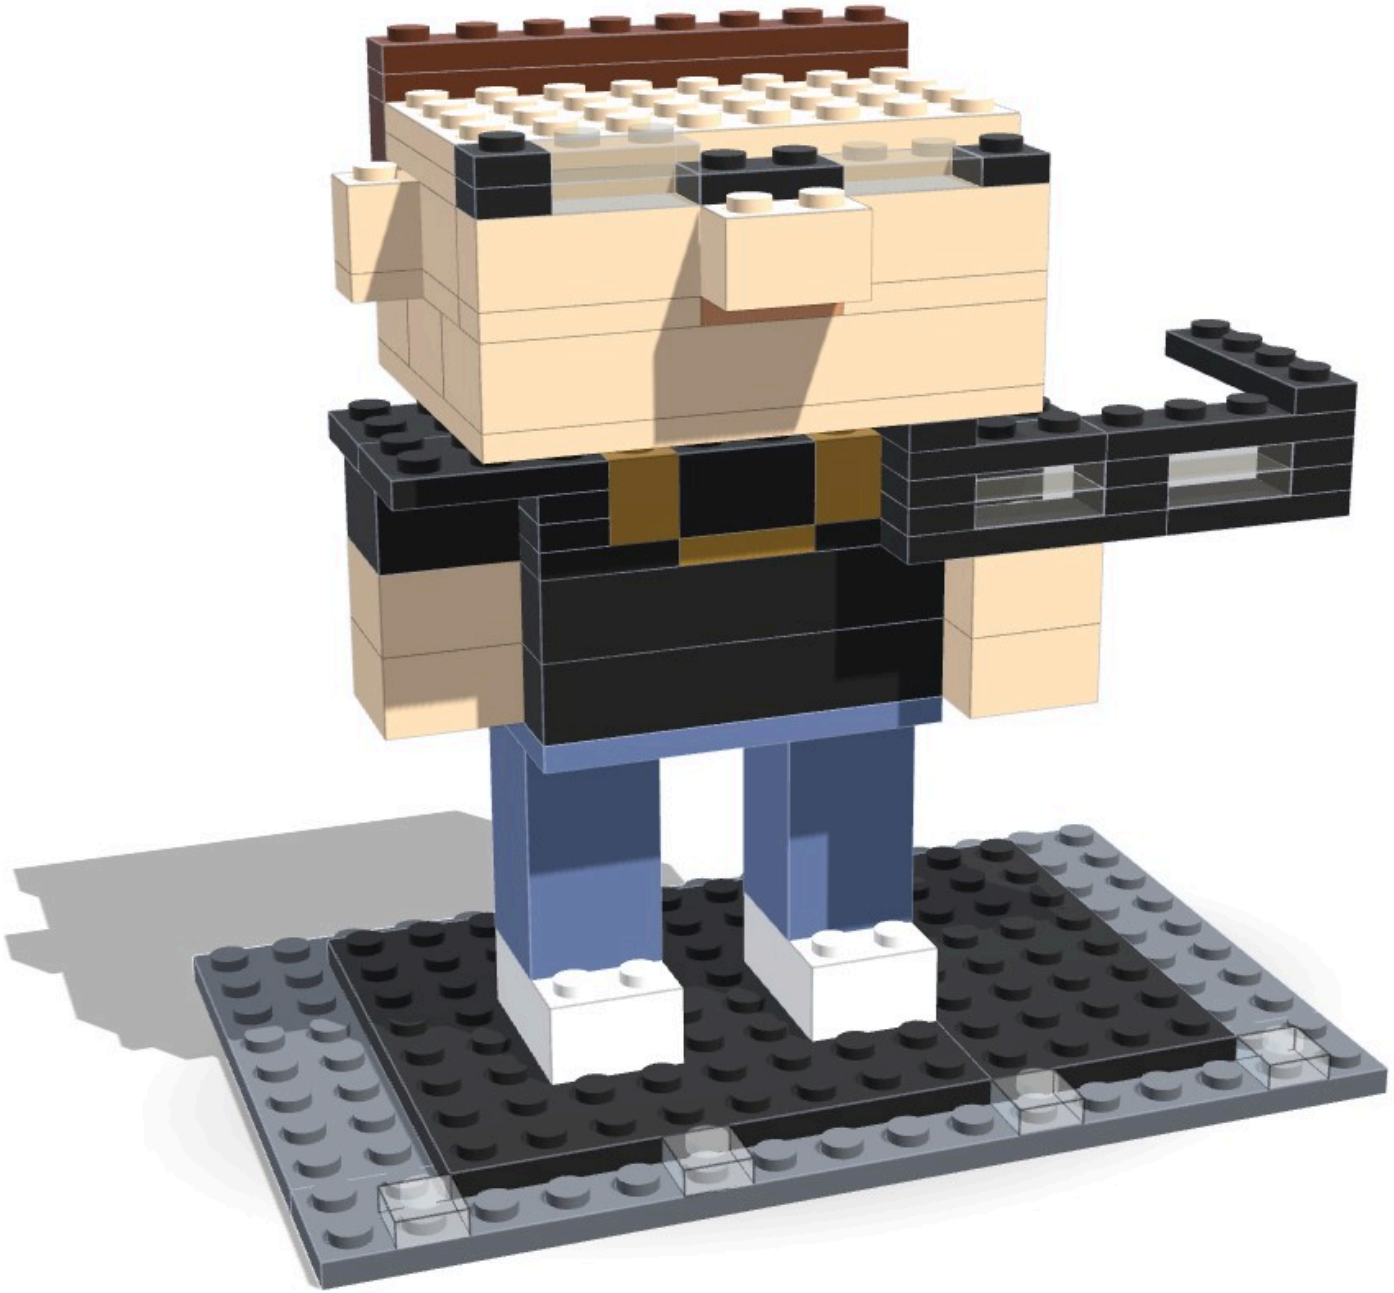

STEP

11

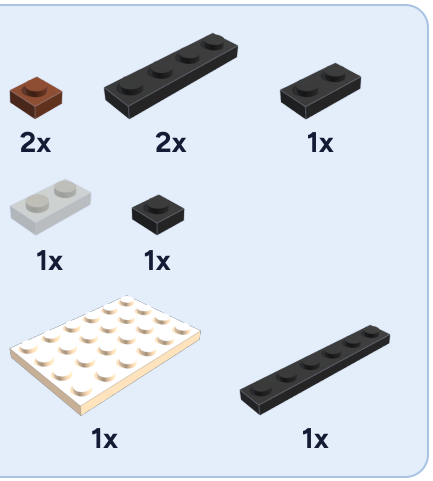

Glasses (1 of 2)

Three plate courses: trans-black lenses two plates tall in a black frame, then a black bar across the top that runs back over the ears.

Brows and forehead

Reddish brown brows above the lenses, then the forehead with hair at the sides and back.

STEP

14

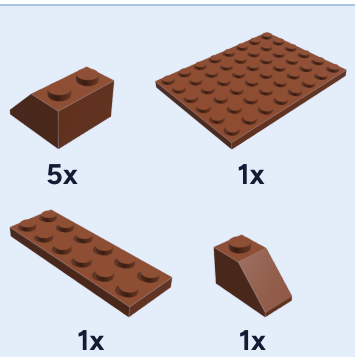

Curly hair

The hair grows one stud wider than the head all round, with a few curls hanging forward over the forehead.

STEP

15

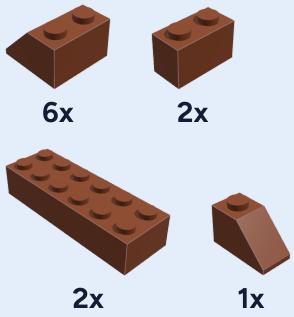

Top of the hair (1 of 2)

A plate course to tie the hair together, then 2×2 slopes all round to round off the top.
