STEP

2

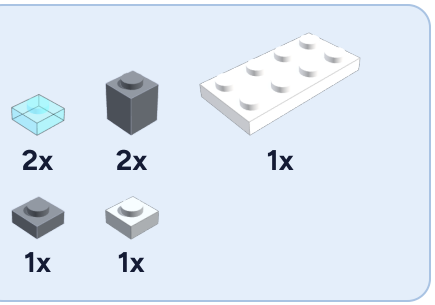

DualSense

The white controller lying flat at the front right, with its black middle.

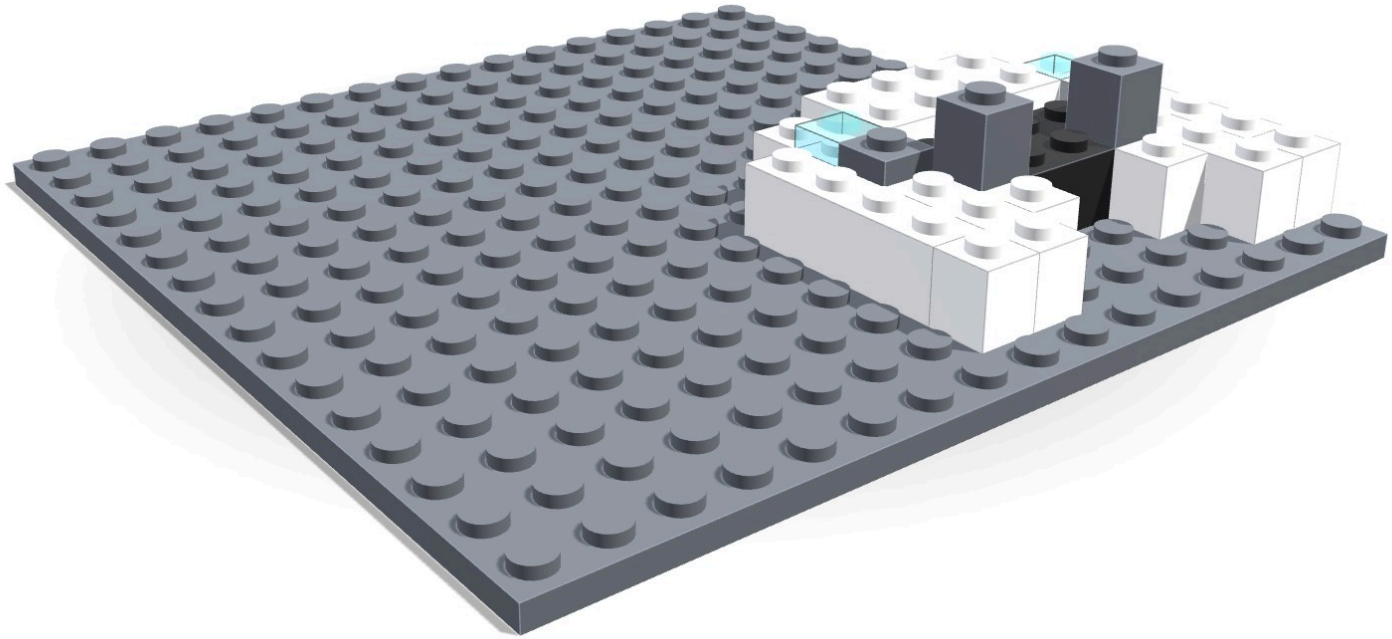

STEP

The raised white touchpad with a blue light either side, the D-pad, the face buttons and two sticks.

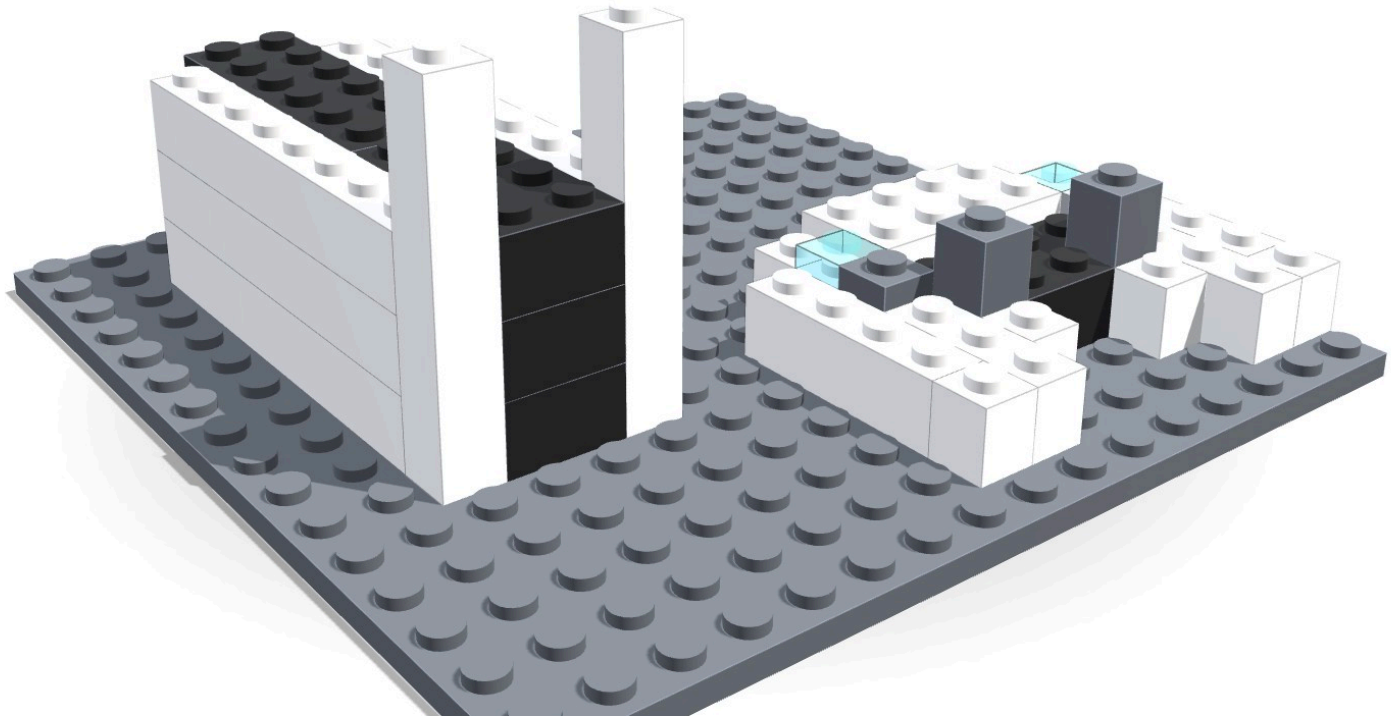

STEP

4

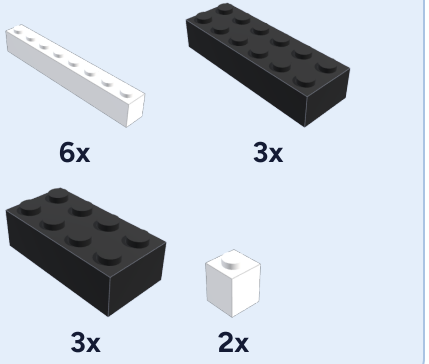

Console: bottom

The black core, two studs wide, standing on its narrow end, with a thin white panel on each side. At the front the panels stop short, so the black shows.

From here the white panels are two studs thick, so they flare out like wings.
