FREE LEGO BUILDING INSTRUCTIONS · PDF

Sung Jinwoo, Shadow Monarch (Solo Leveling)

The Shadow Monarch in his long black coat, twin daggers low, eyes glowing purple over a pool of rising shadow.

Free LEGO Sung Jinwoo, Shadow Monarch (Solo Leveling) instructions as a printable PDF: a fan-made LEGO MOC built from 194 standard LEGO pieces in 20 steps, with the pieces for every step and a full parts list.

Build it in 3D, step by step:

PIECES	STEPS	KINDS OF PIECE

An unofficial fan build. All standard pieces; any similar colour works. Every stud is checked. LEGO is a trademark of the LEGO Group, which does not sponsor this site.

STEP

1

4x

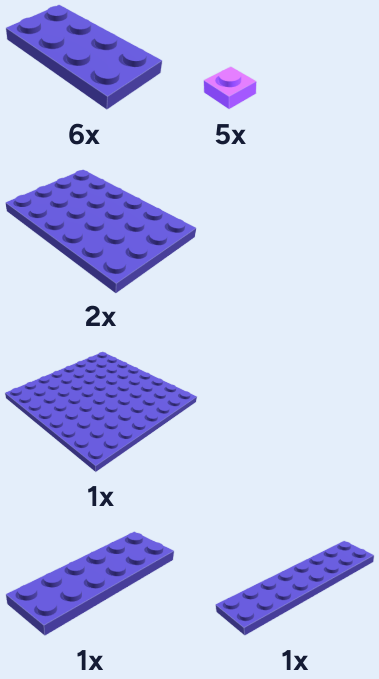

Black base

Lay the four black 6×10 plates side by side: a 20 × 12 base.

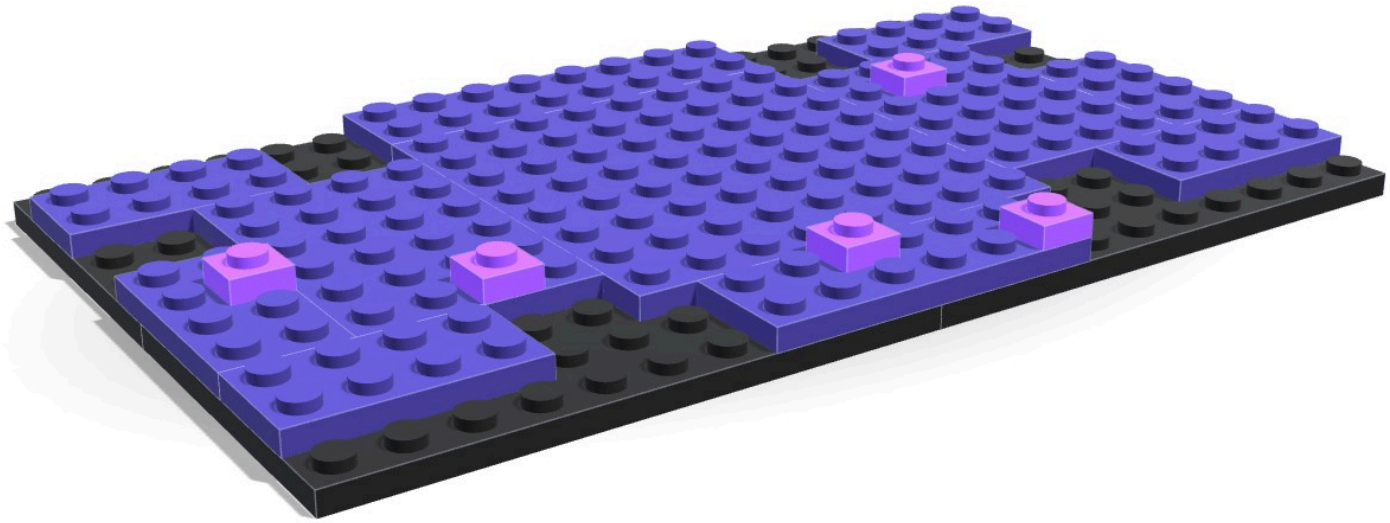

STEP

2

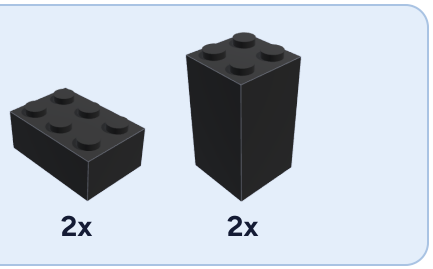

Shadow pool

Dark purple plates on top make the pool of shadow. The middle 8×8 bridges all four base plates, so the base is one piece. Five glowing trans-purple 1×1 plates are the cracks where the shadow rises.

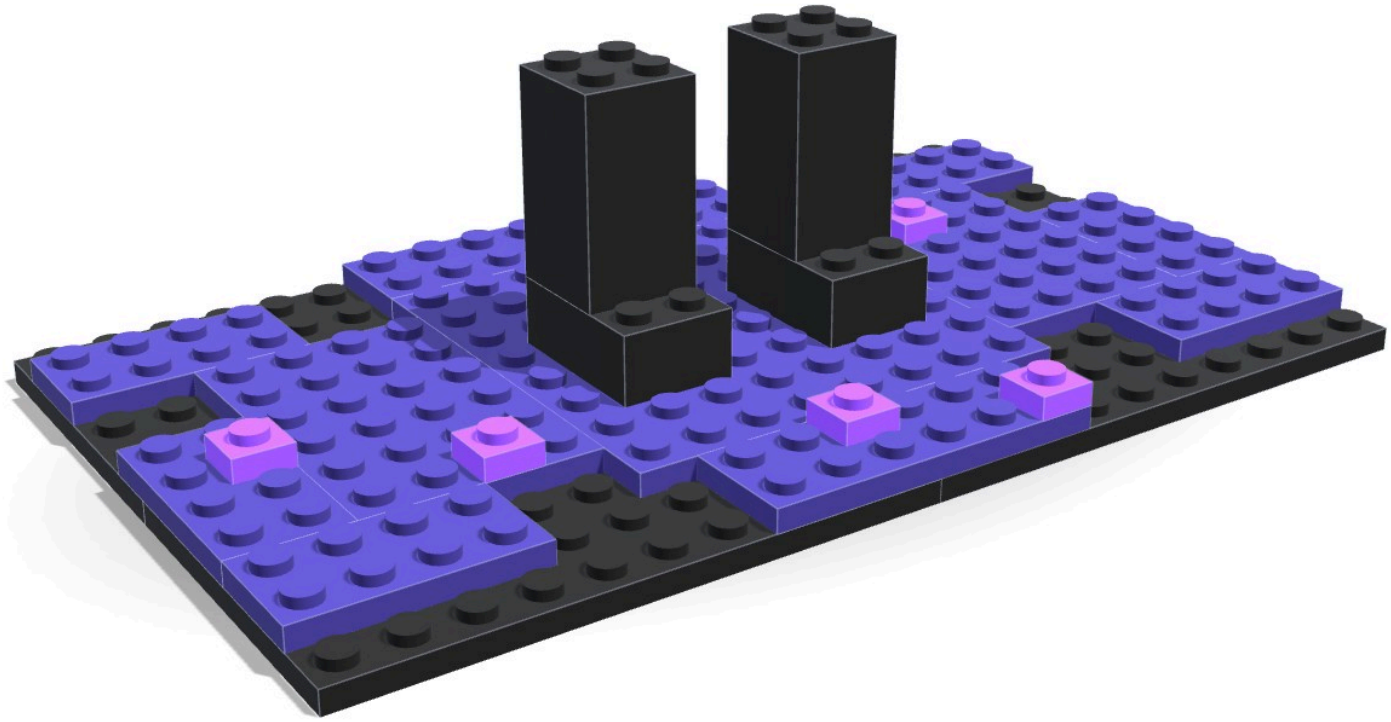

STEP

3

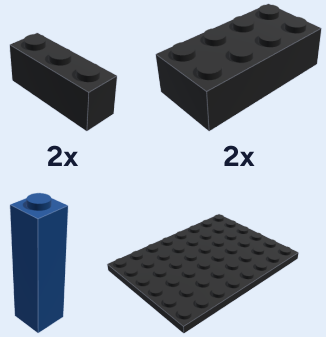

Boots and legs

A black 2×3 boot for each foot, toes forward, then three 2×2 bricks up each leg.

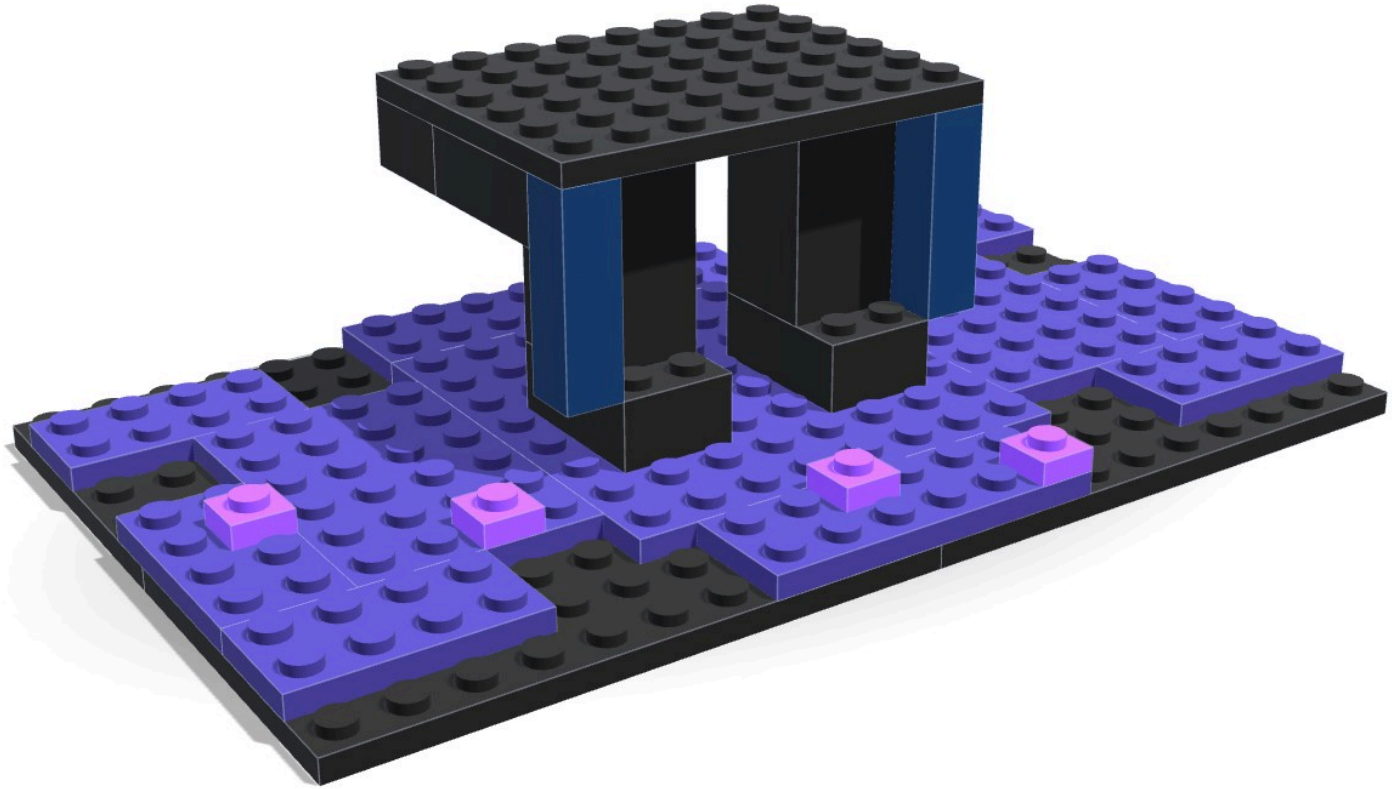

STEP

4

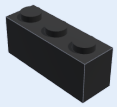

Hips and coat

The black 6×8 plate joins the legs and reaches back for the coat. Under it hang the coat sides and the two tails.

STEP

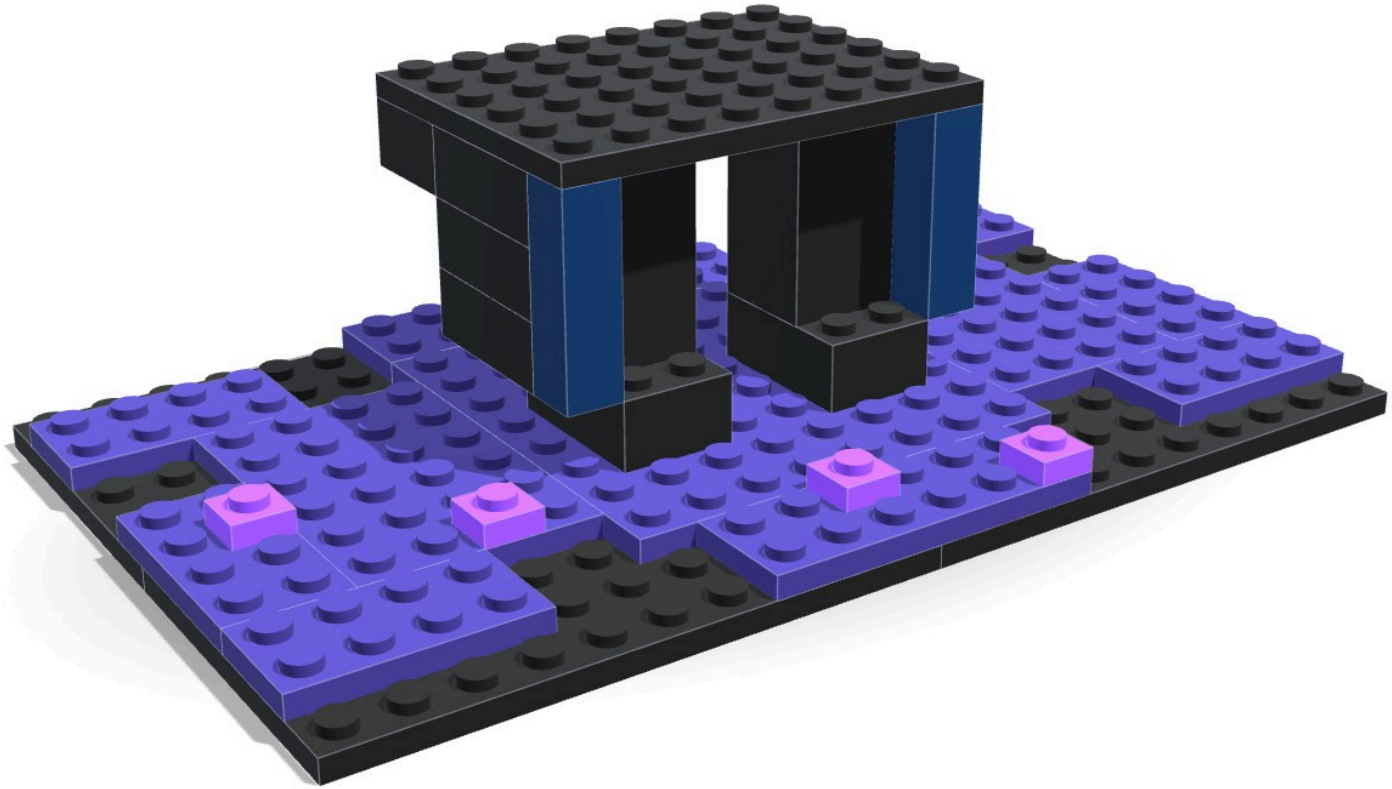

5

4x

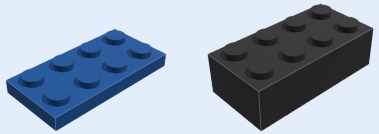

Long coat, front

The open coat hangs down past his knees on both sides: black 1×3 bricks with a dark blue 1×1 at the front edge.

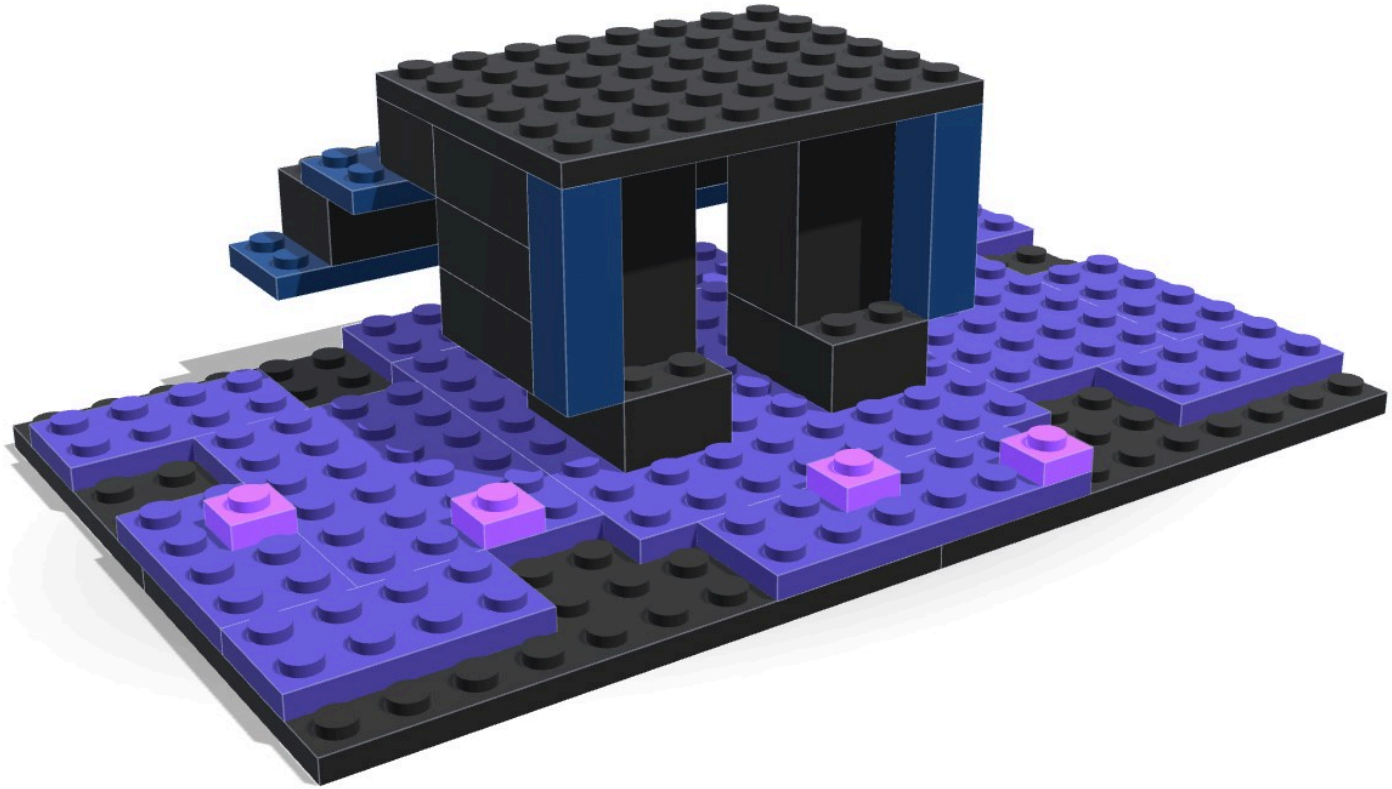

STEP

6

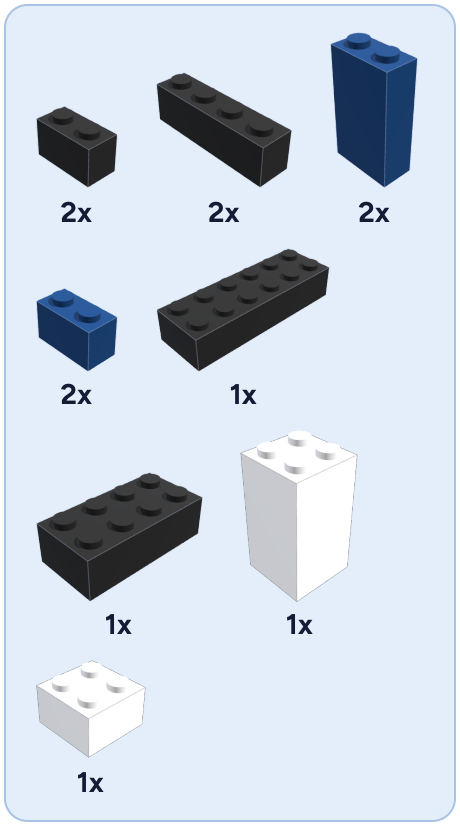

Coat tails flare back

Each tail steps out and back: a dark blue plate (the coat lining), a black 2×4 brick, and a dark blue hem.

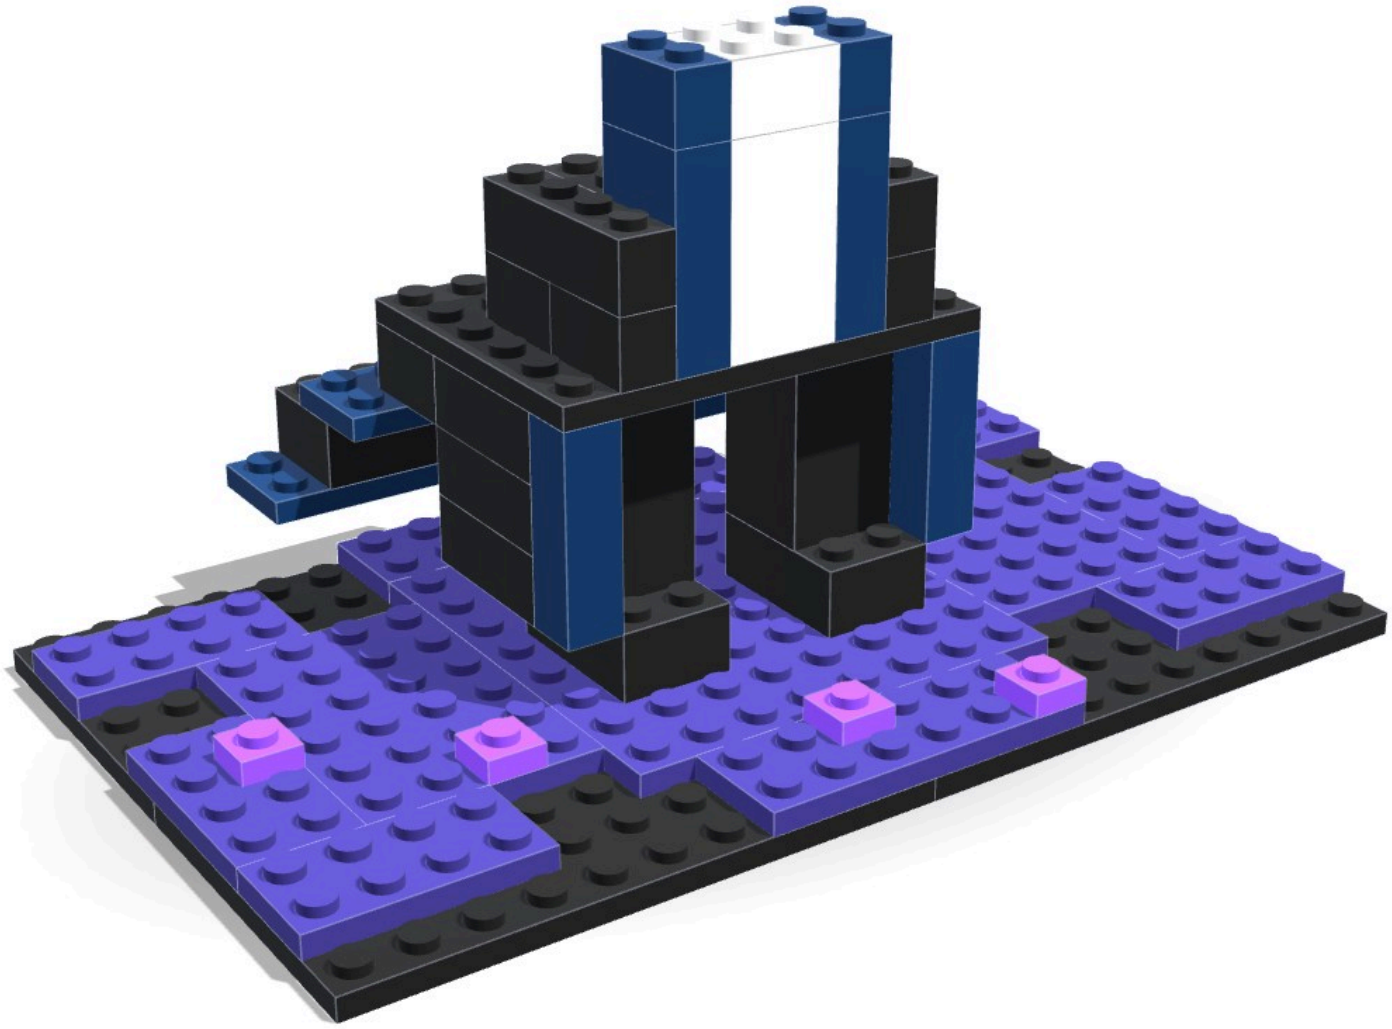

STEP

7

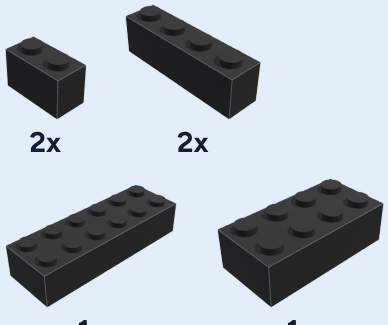

Shirt and coat, lower

The open coat: black at the back and sides, dark blue lapels, and the white shirt in the middle.

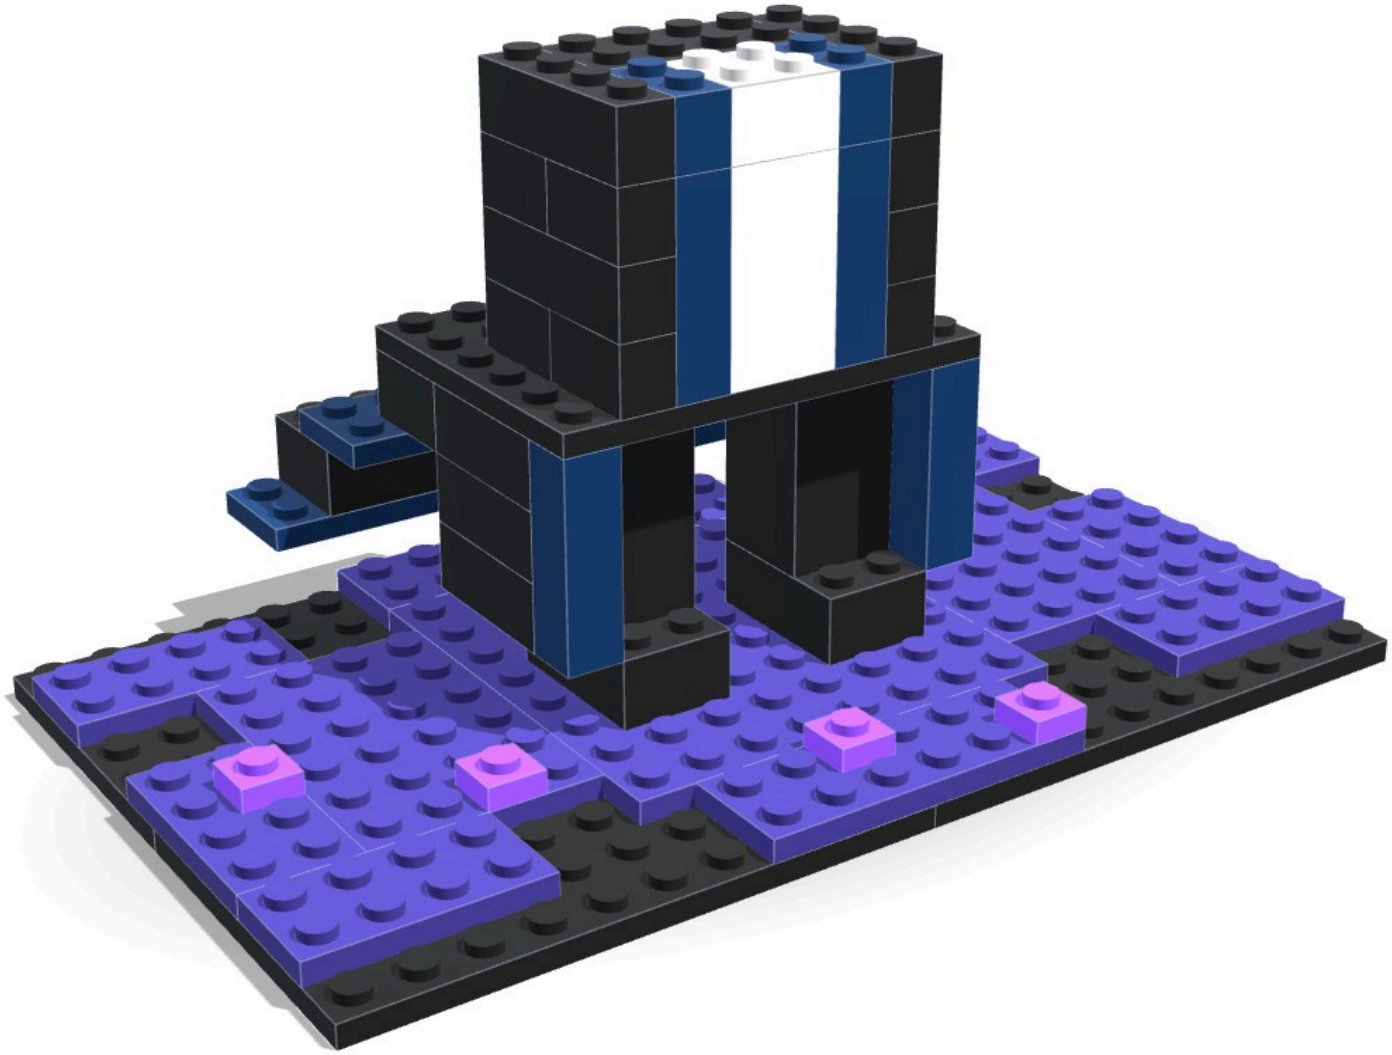

STEP

8

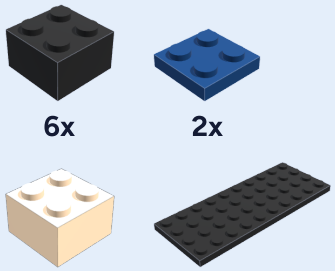

Shirt and coat, upper

Two more layers the same way. The side bricks run front to back, so the rows lock together.

STEP

9

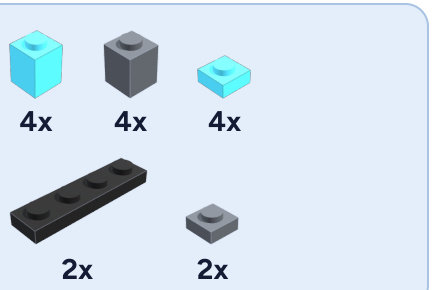

Shoulders and arms

The black 4×10 plate makes the shoulders. Each arm hangs under it and steps one stud out per brick, then a dark blue 2×2 plate cuff and a light nougat 2×2 brick fist.

STEP

10

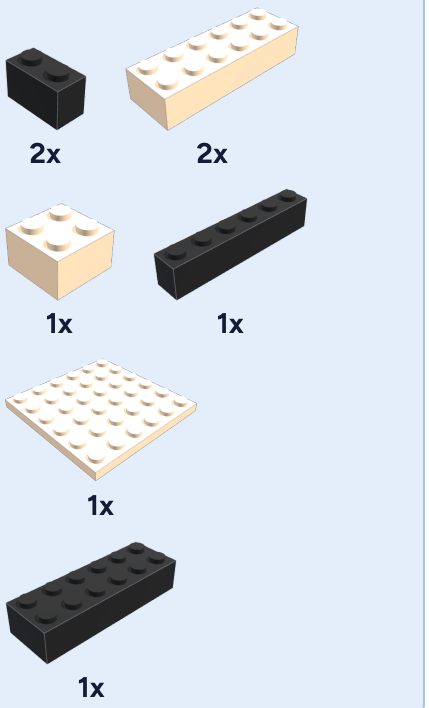

Twin daggers

Under each fist a black 1×4 plate is the guard. The blades hang below: dark bluish gray inside, glowing light blue on the outer edge.

STEP

11

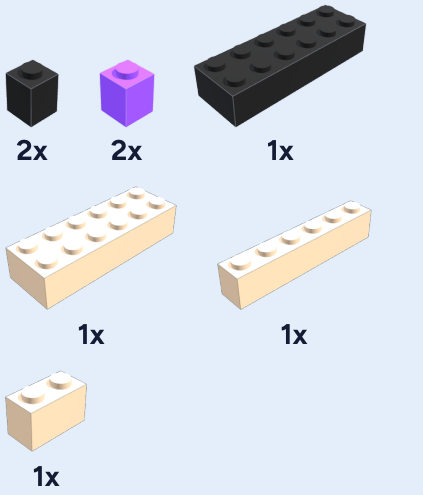

Neck and collar

A light nougat 2×2 brick for the neck, the coat collar around it, the 6×6 plate that carries the head, and the jaw: black at the back for the hair at his neck, light nougat for the face.

STEP

12

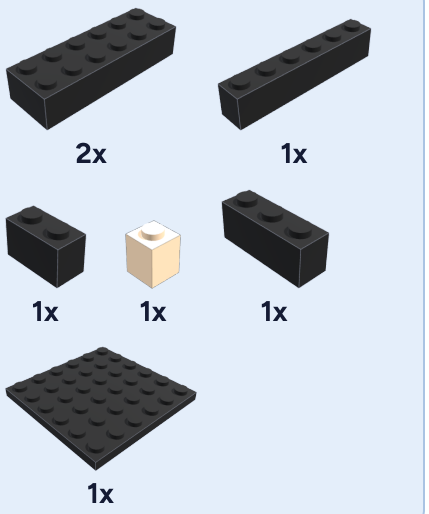

Glowing eyes

The face row: black sideburns, a trans-purple 1×1 brick for each eye, a light nougat nose bridge between them. These glow at night.

STEP

13

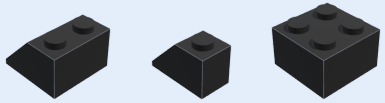

Bangs

All black over the forehead: his bangs fall right down to the eyes, with a little gap on one side.

STEP

14

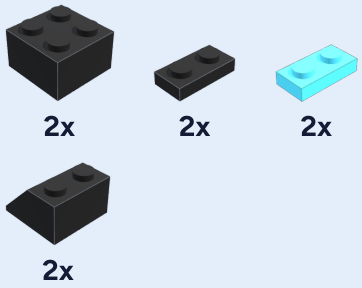

Messy hair

Black 2×2 slopes all round the top fall outward, a 2×2 brick in the middle, and two 1×2 slopes swept back on top.

STEP

15

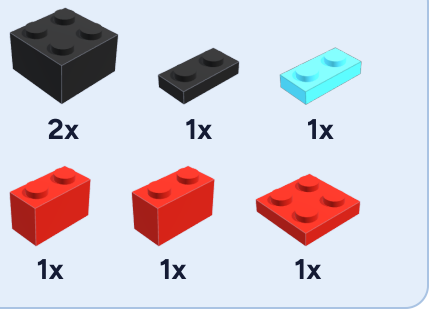

Shadow soldiers

Two shadow soldiers rise out of the pool at the front corners: black helmets with a glowing light blue visor.

STEP

16

Igris

Behind him on the left rises Igris, his knight: a taller black helmet, a glowing visor and the red plume sweeping back.

STEP

17

Wisp, front left

Purple wisps rise from the pool: thin stacks of 1×1 plates, dark purple first, then glowing trans-purple. Every third plate is a 1×2 that steps the wisp one stud sideways, so it sways.

STEP

18

Wisps, front right and middle

Two more the same way: one by his right boot and a short one at the front of the pool.

STEP

19

Wisp, back right

The tallest wisp curls up behind him on the right, past the coat tail.

STEP

20

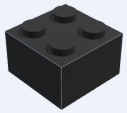

Wisp, back left

The last wisp rises behind his left arm, next to Igris.

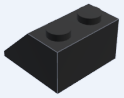

Parts list

194 pieces, 48 kinds. Any similar colour works.
