STEP

1

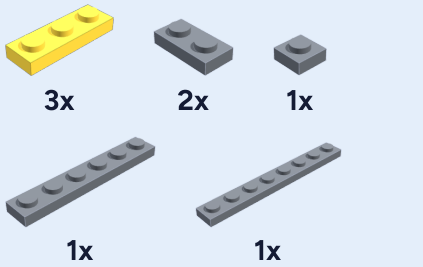

Road base

Lay the three black plates side by side, then cover them with dark bluish gray asphalt plates. The gaps you leave are the cracks: black shows through.

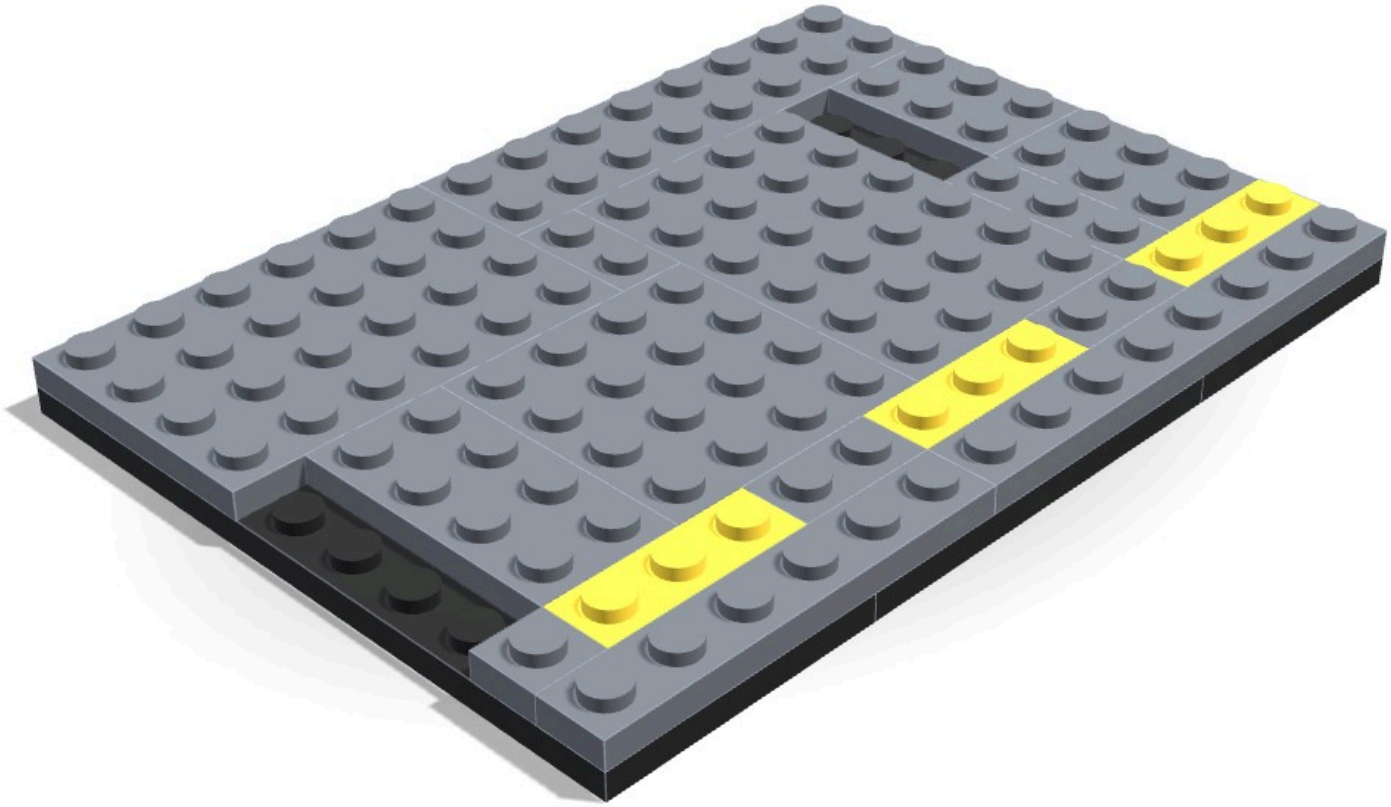

STEP

2

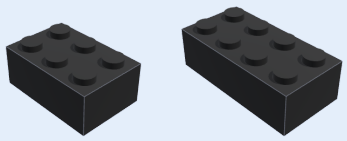

Road line

The yellow centre line runs across the front in three dashes, with asphalt in between and a strip along the front edge.

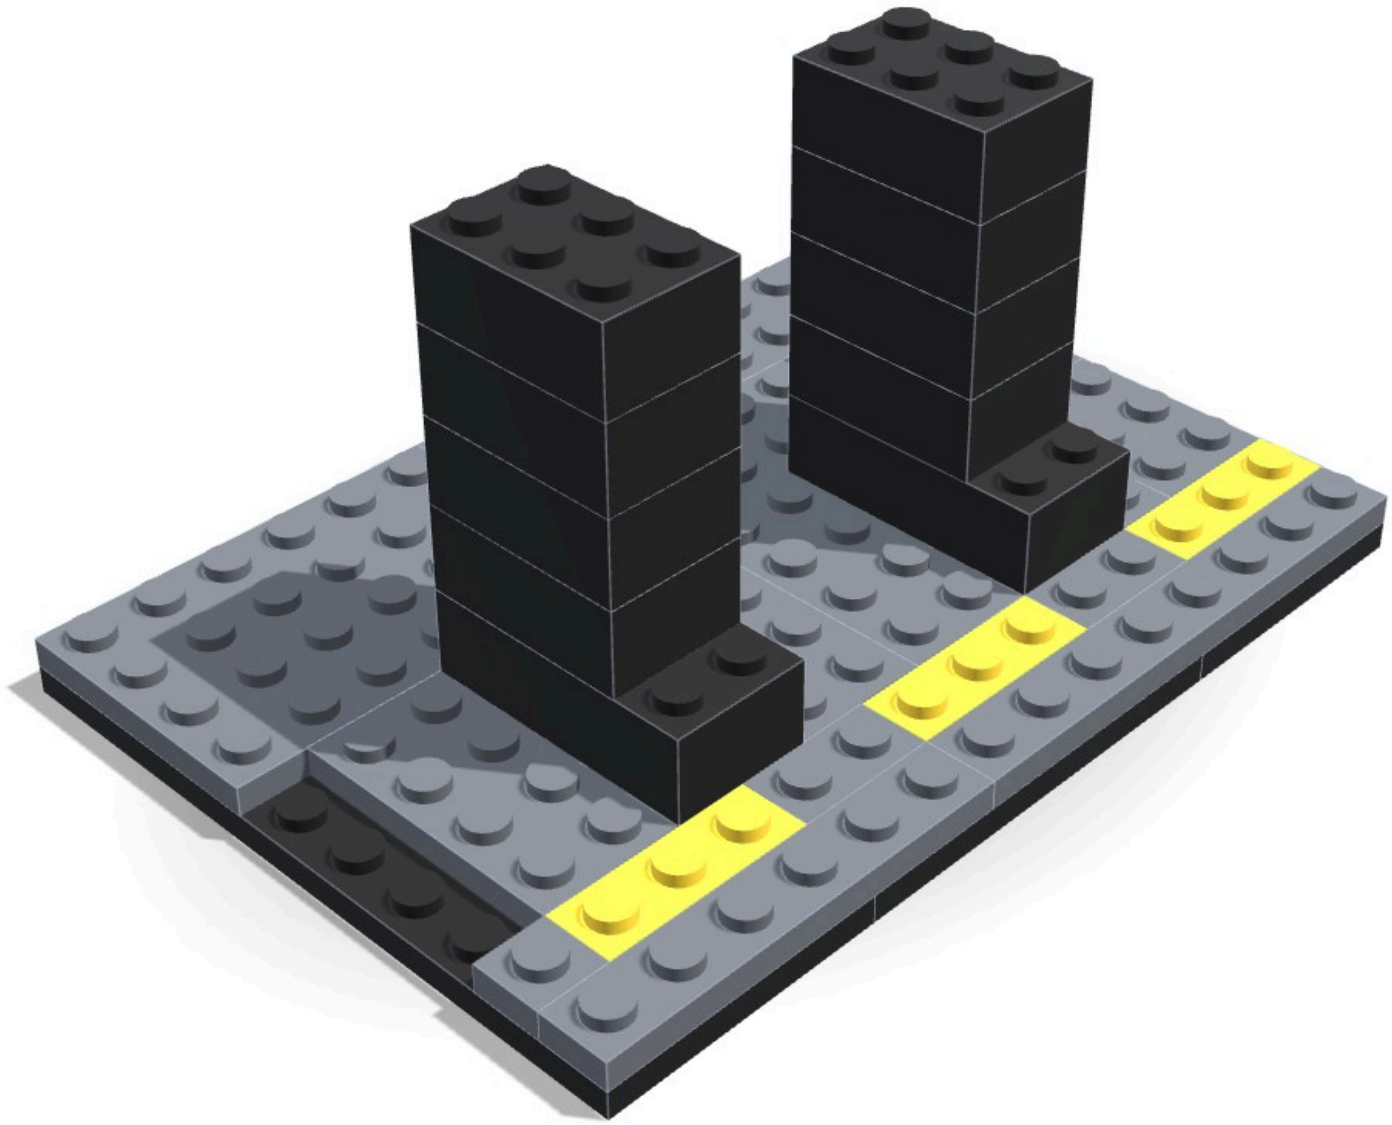

STEP

3

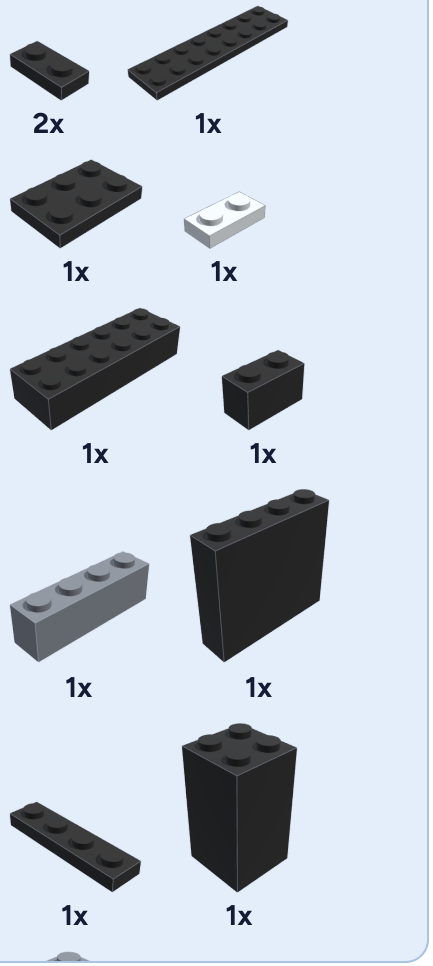

Boots and legs

Two black 2×4 boots, toes forward, with the legs on top: four 2×3 bricks each, feet planted shoulder-width apart.

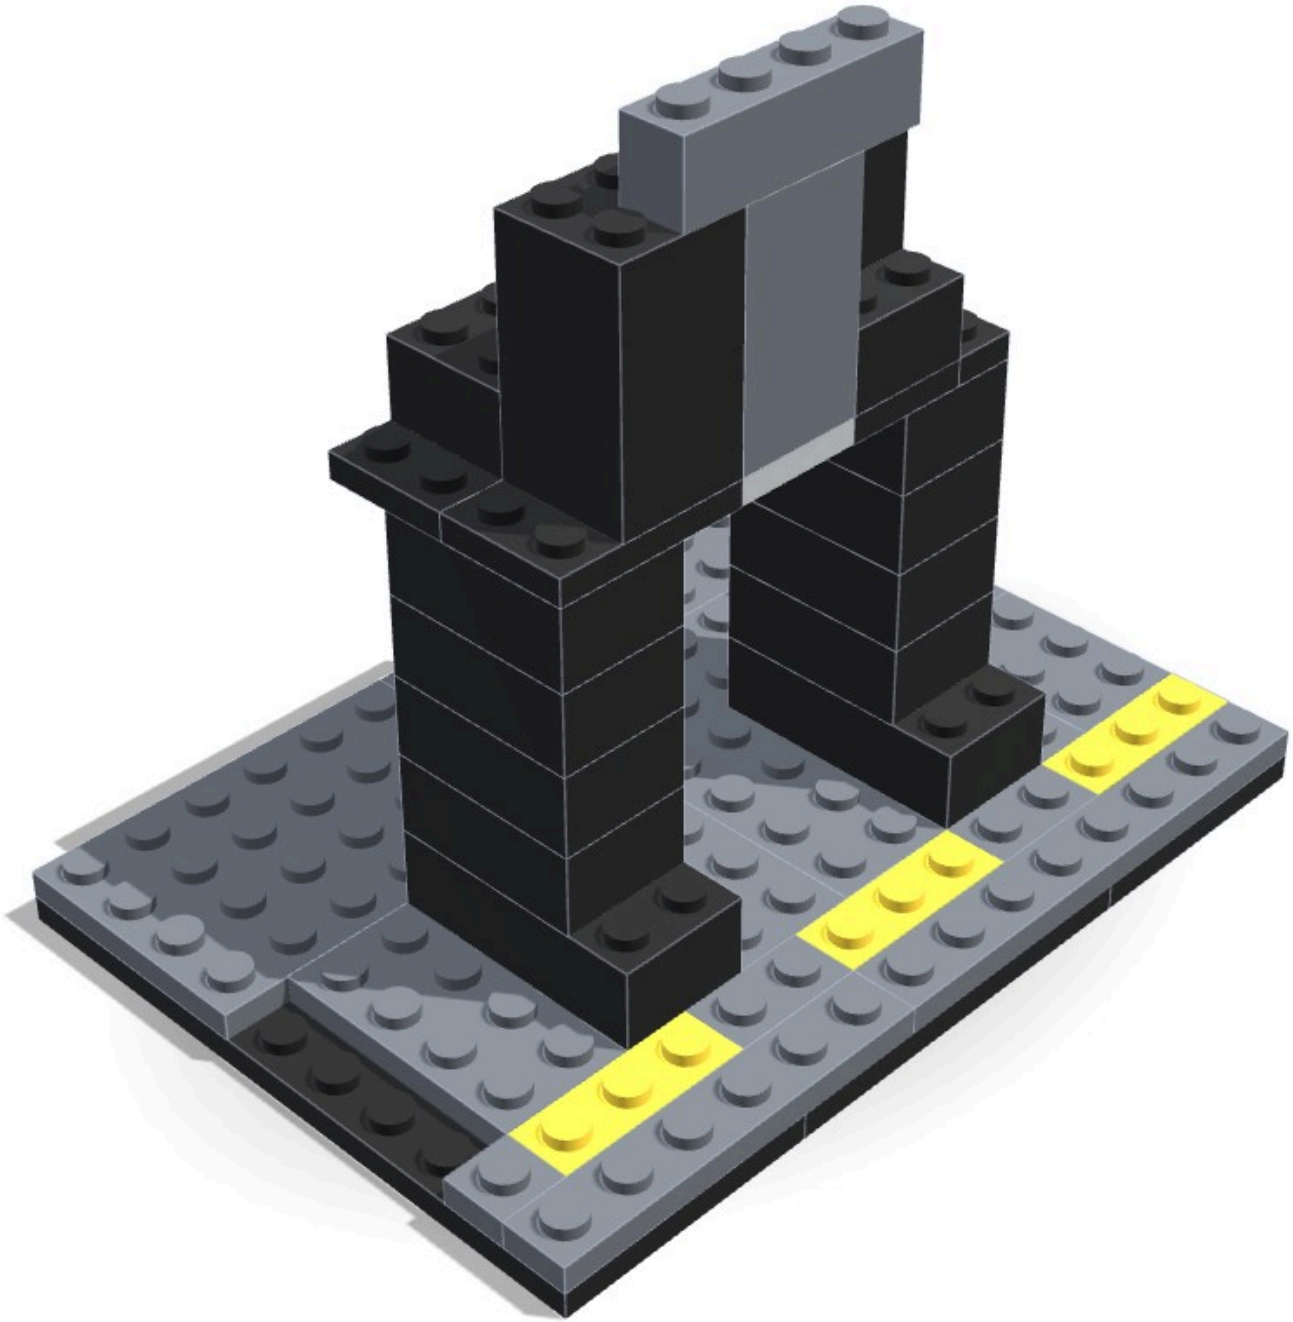

STEP

4

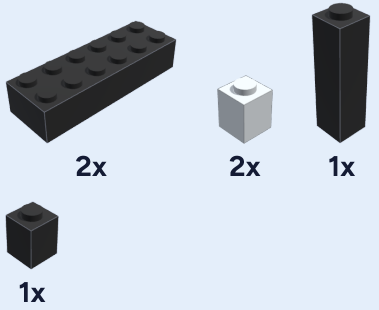

Hips and belt

A black belt plate joins the legs, with the light bluish gray buckle at the front. The jacket starts on top: black, open over the dark grey T-shirt.

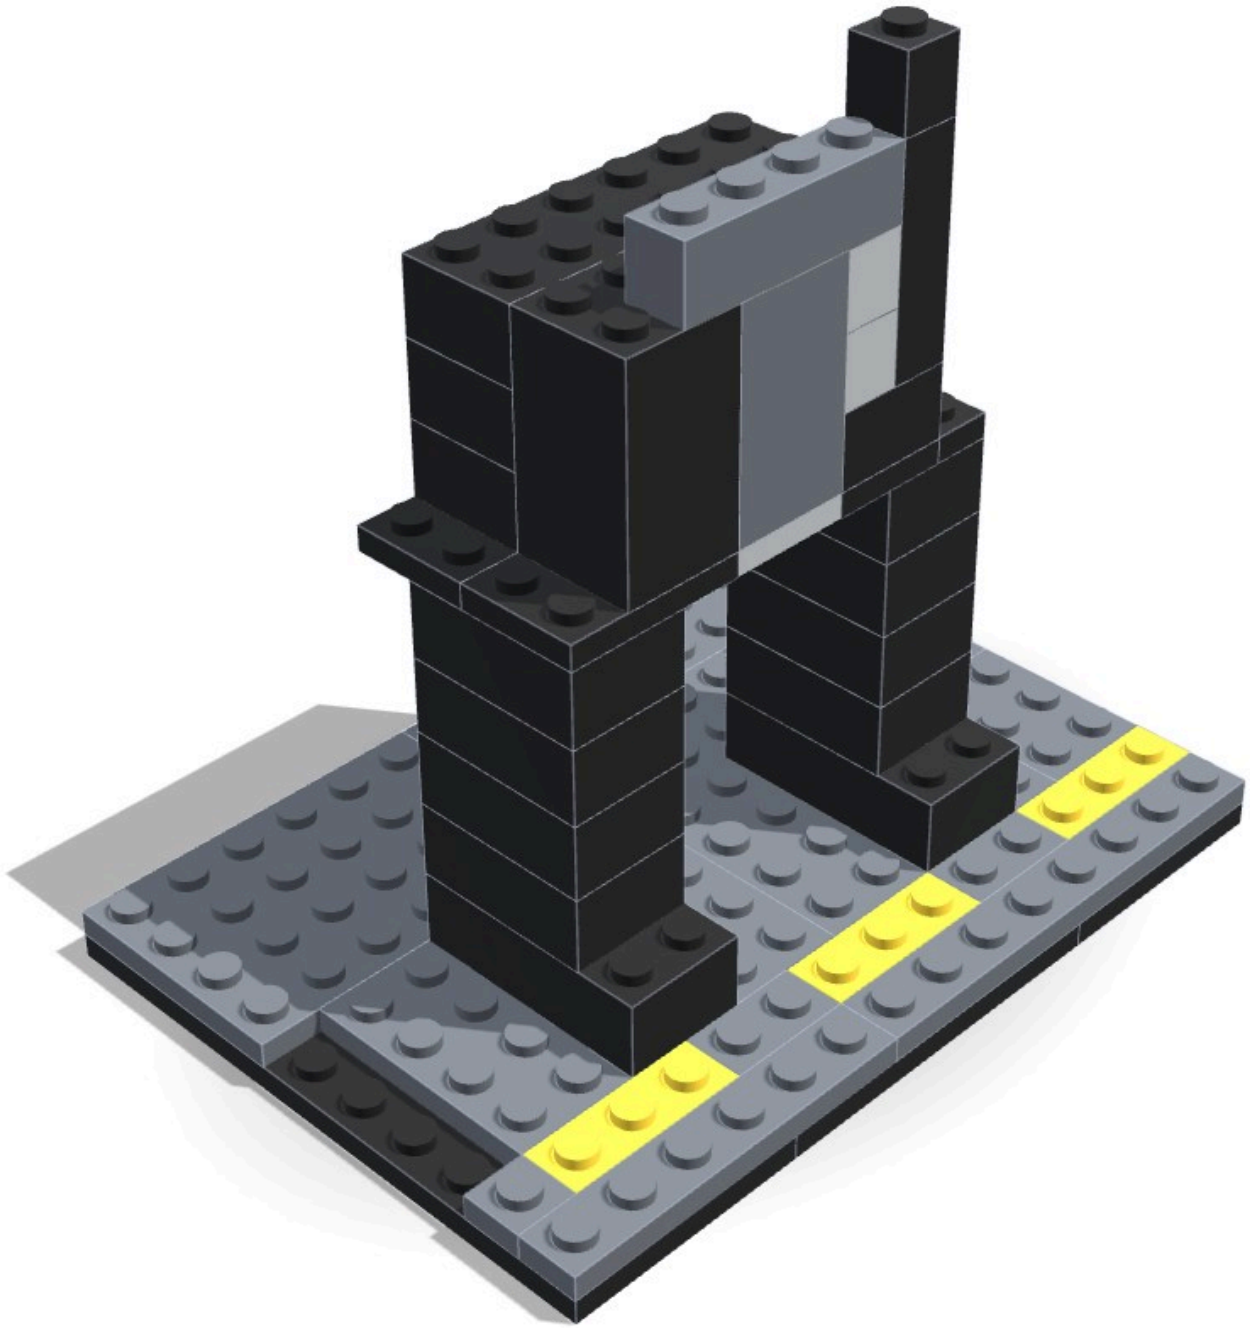

STEP

5

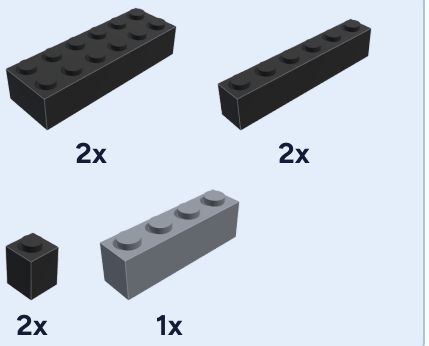

Jacket and zip

Two more jacket layers. The silver zip runs down the open front on his left.

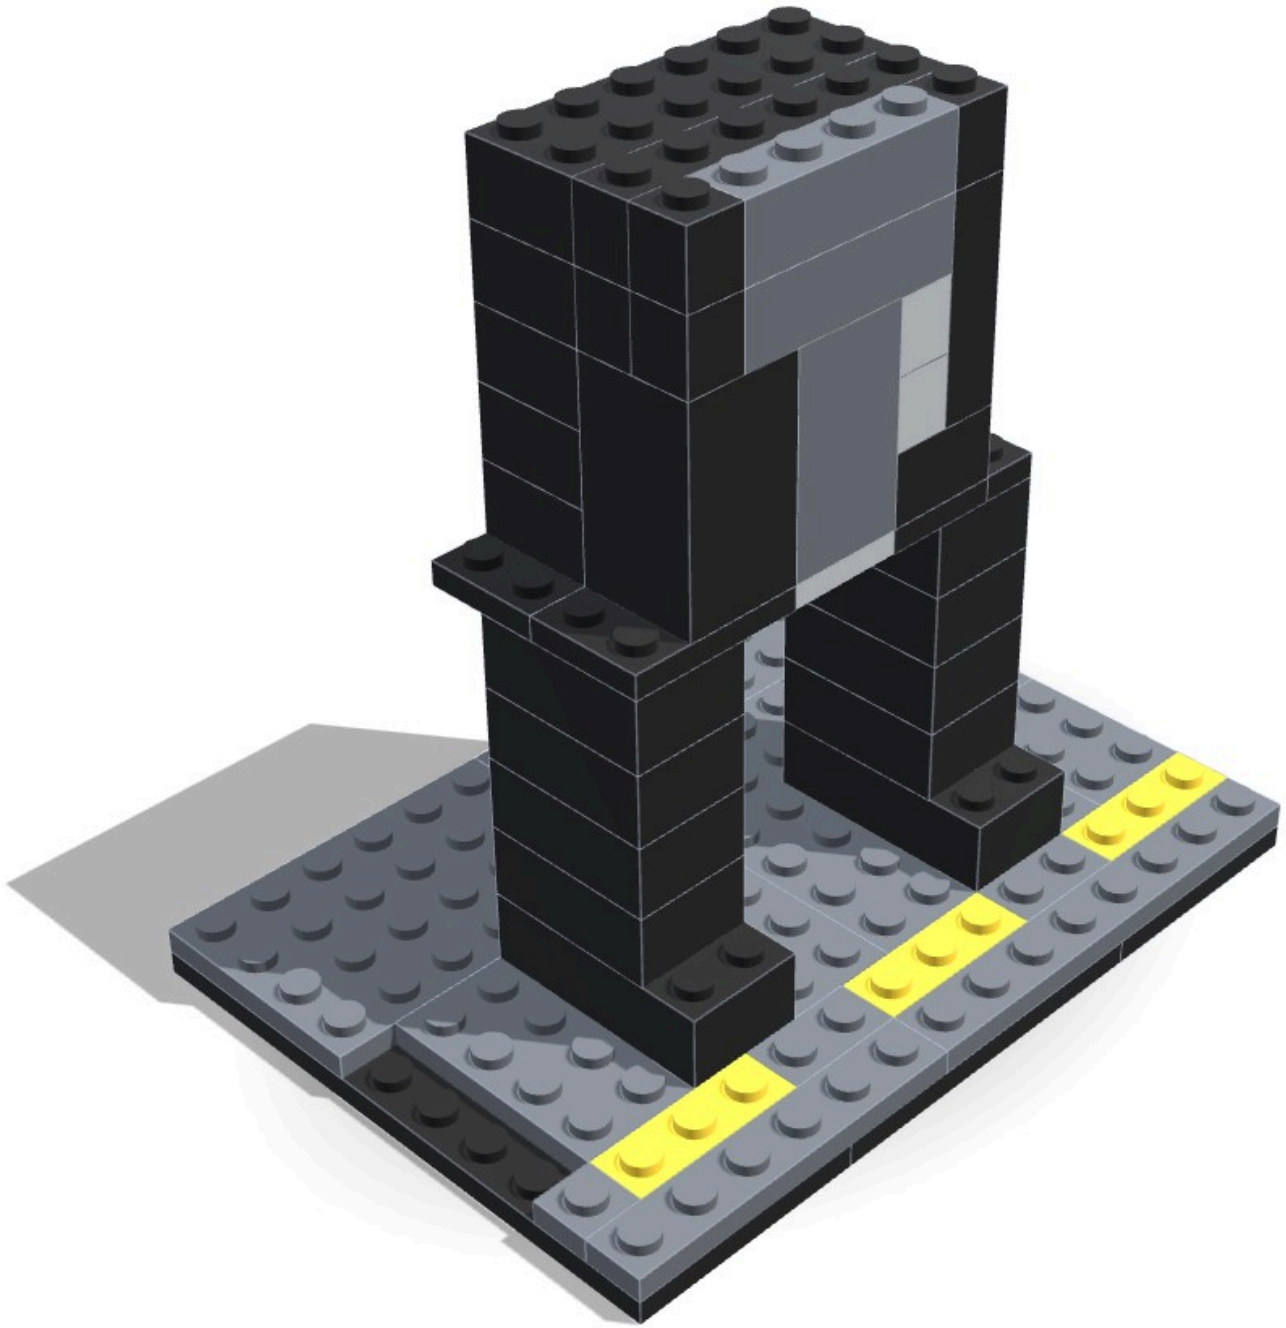

STEP

6

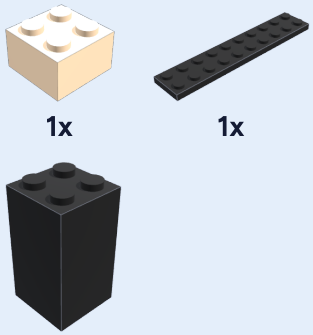

Chest

The jacket opens wider toward the chest, so more of the T-shirt shows.

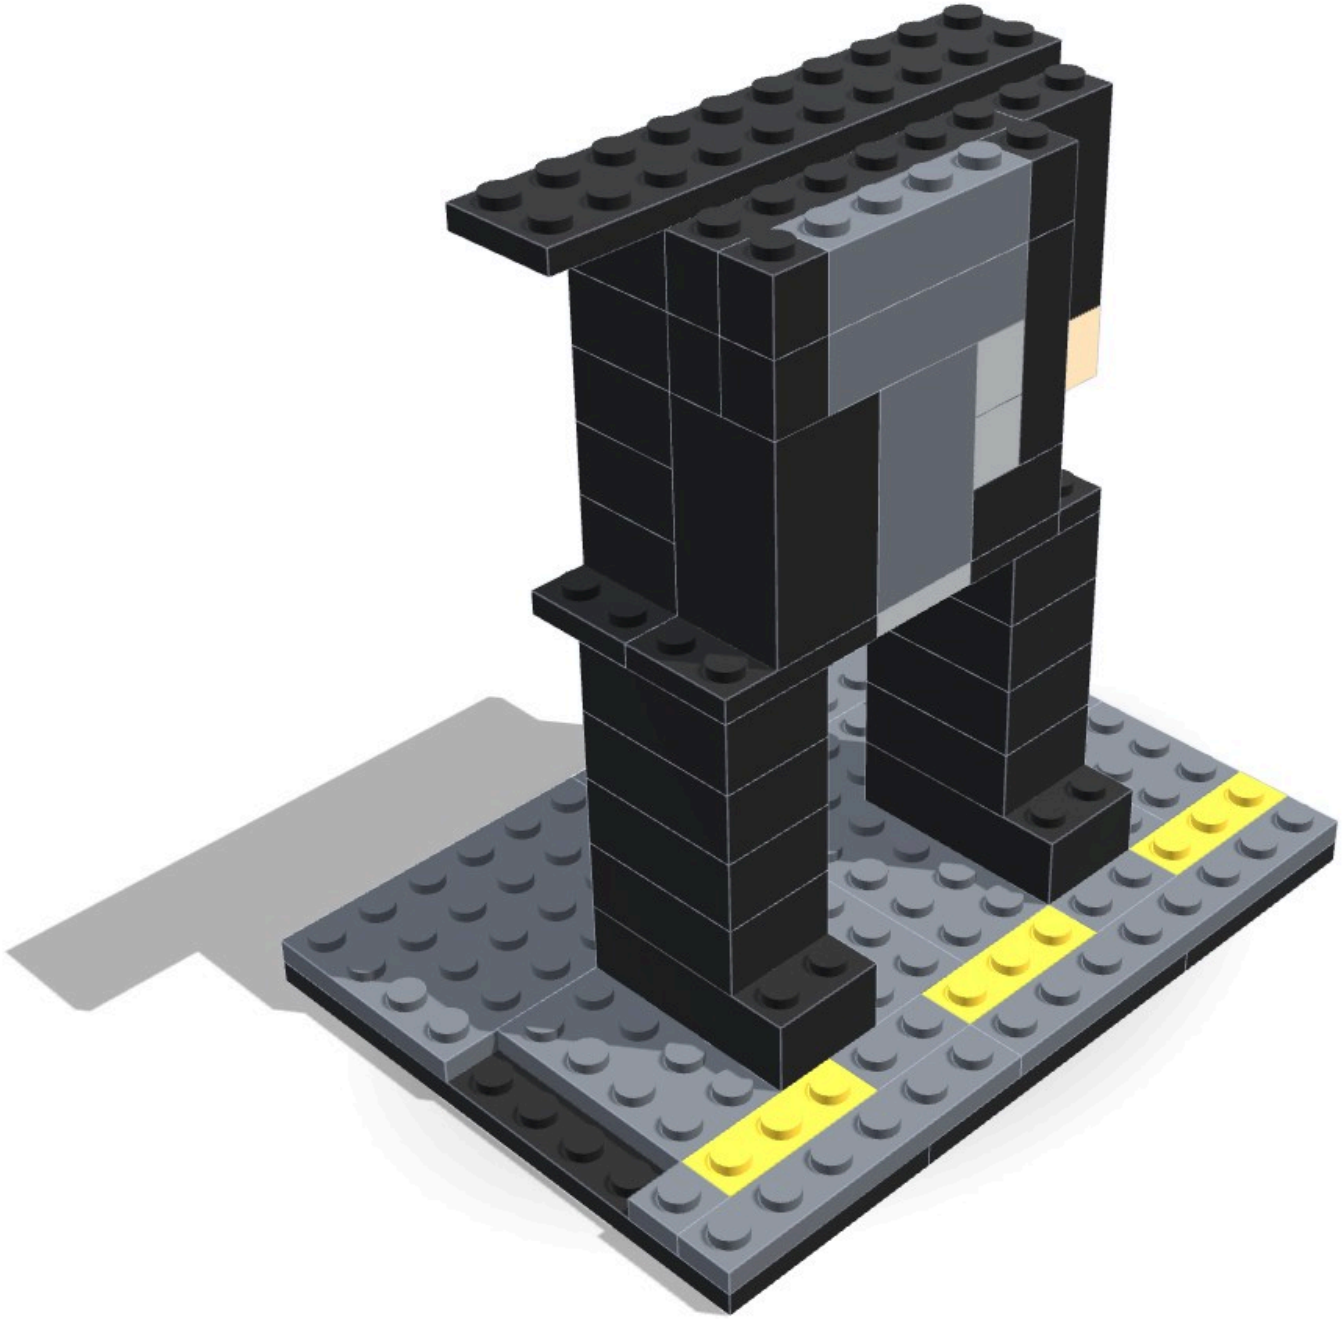

STEP

7

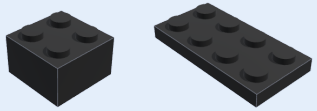

Left arm

His left arm hangs relaxed: three black 2×2 bricks and a light nougat hand. Build it now and fix it under the shoulders in the next step.

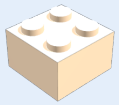

STEP

1x

Right arm and fist

His right arm bends at the elbow. A black 2×4 plate is the cuff, and under it the fist closes round the shotgun's grip.

STEP

9

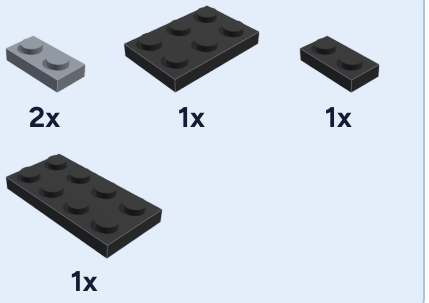

Shotgun stock and receiver

The reddish brown stock hangs under the fist. Above the cuff go the dark steel receiver and the wooden fore-end.

STEP

10

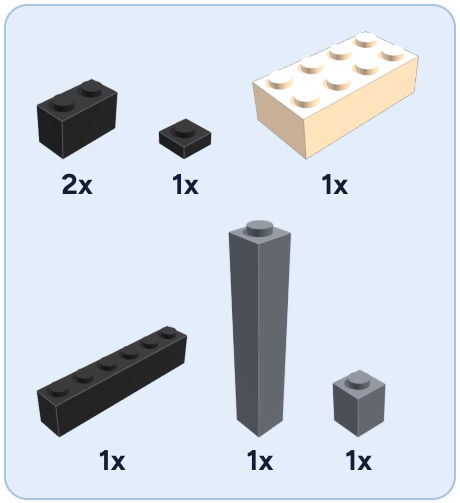

Shoulders

One plate layer across both shoulders locks the arms and the jacket together. The dark gray 1×2 on his right shoulder is where the shotgun rests; the T-shirt shows at the neckline.

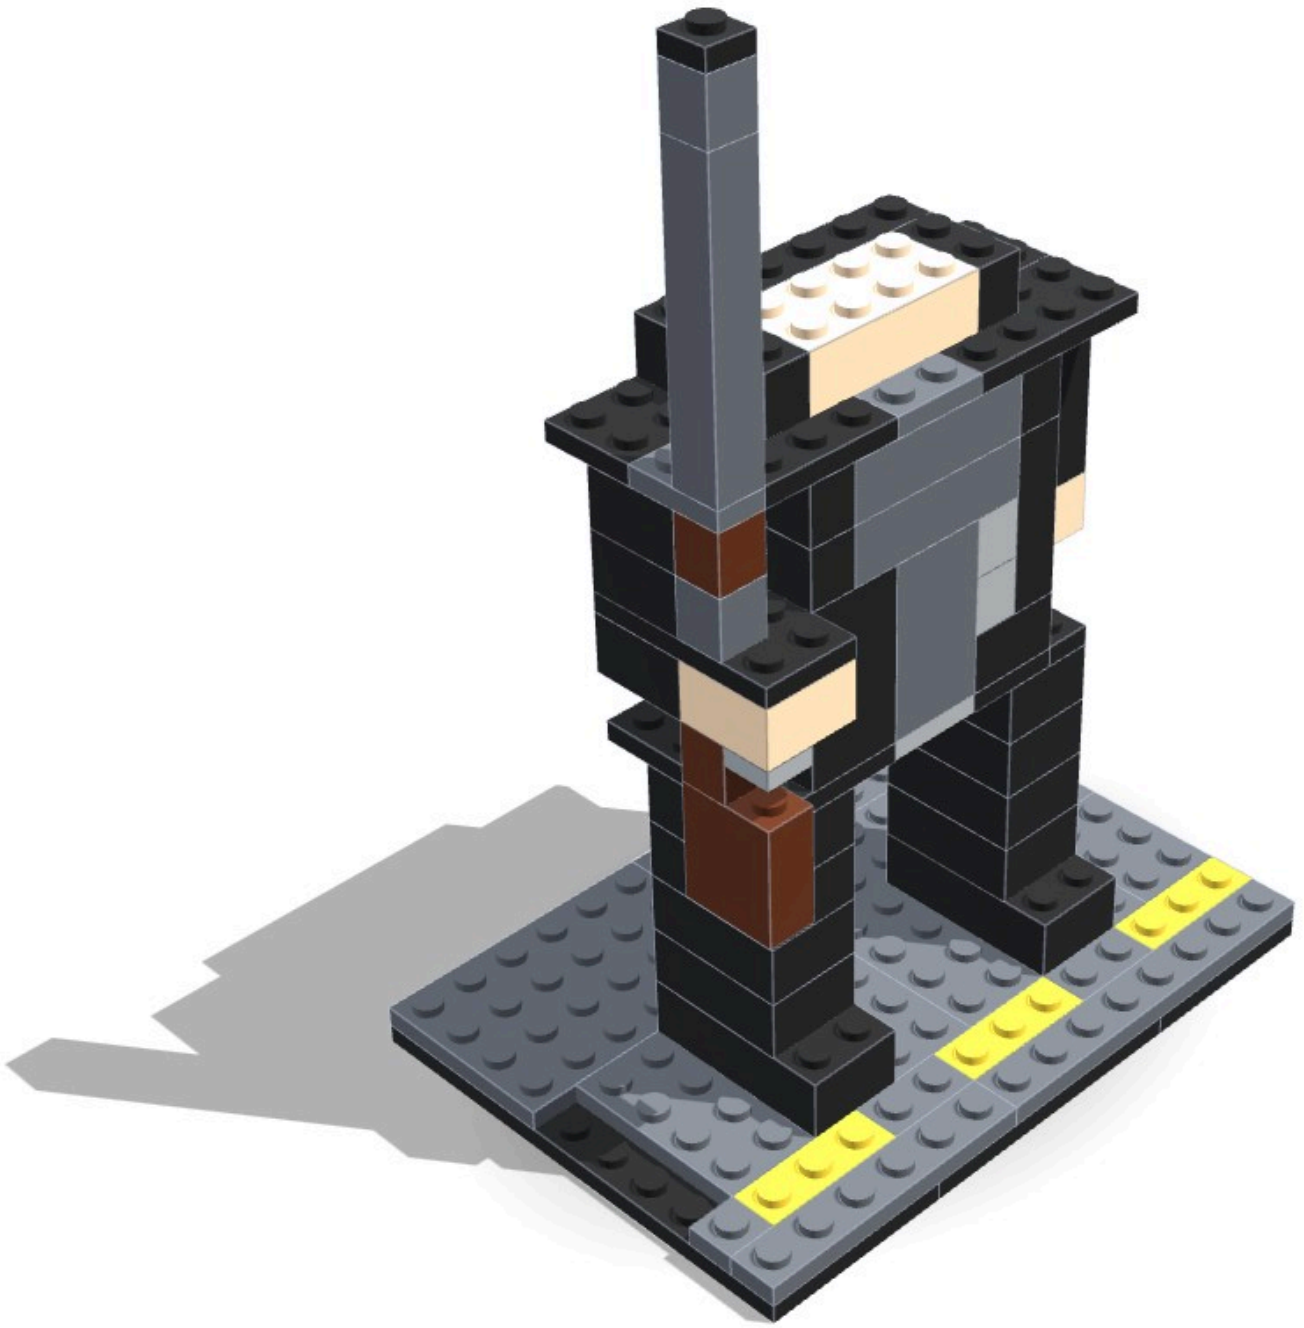

STEP

11

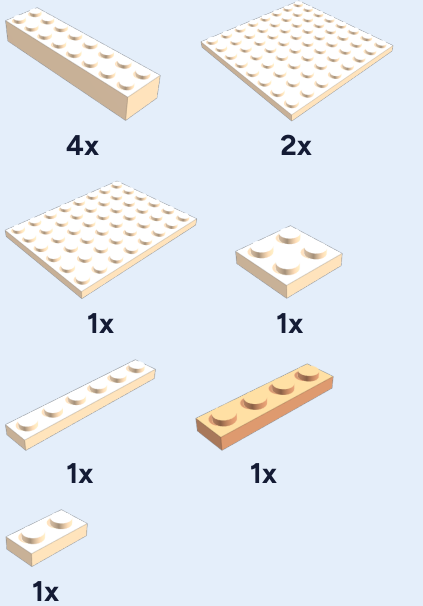

Barrel, neck and collar

Six dark bluish gray 1×1 bricks make the barrel, standing up beside his head. Then a thick light nougat neck and the black jacket collar round it.

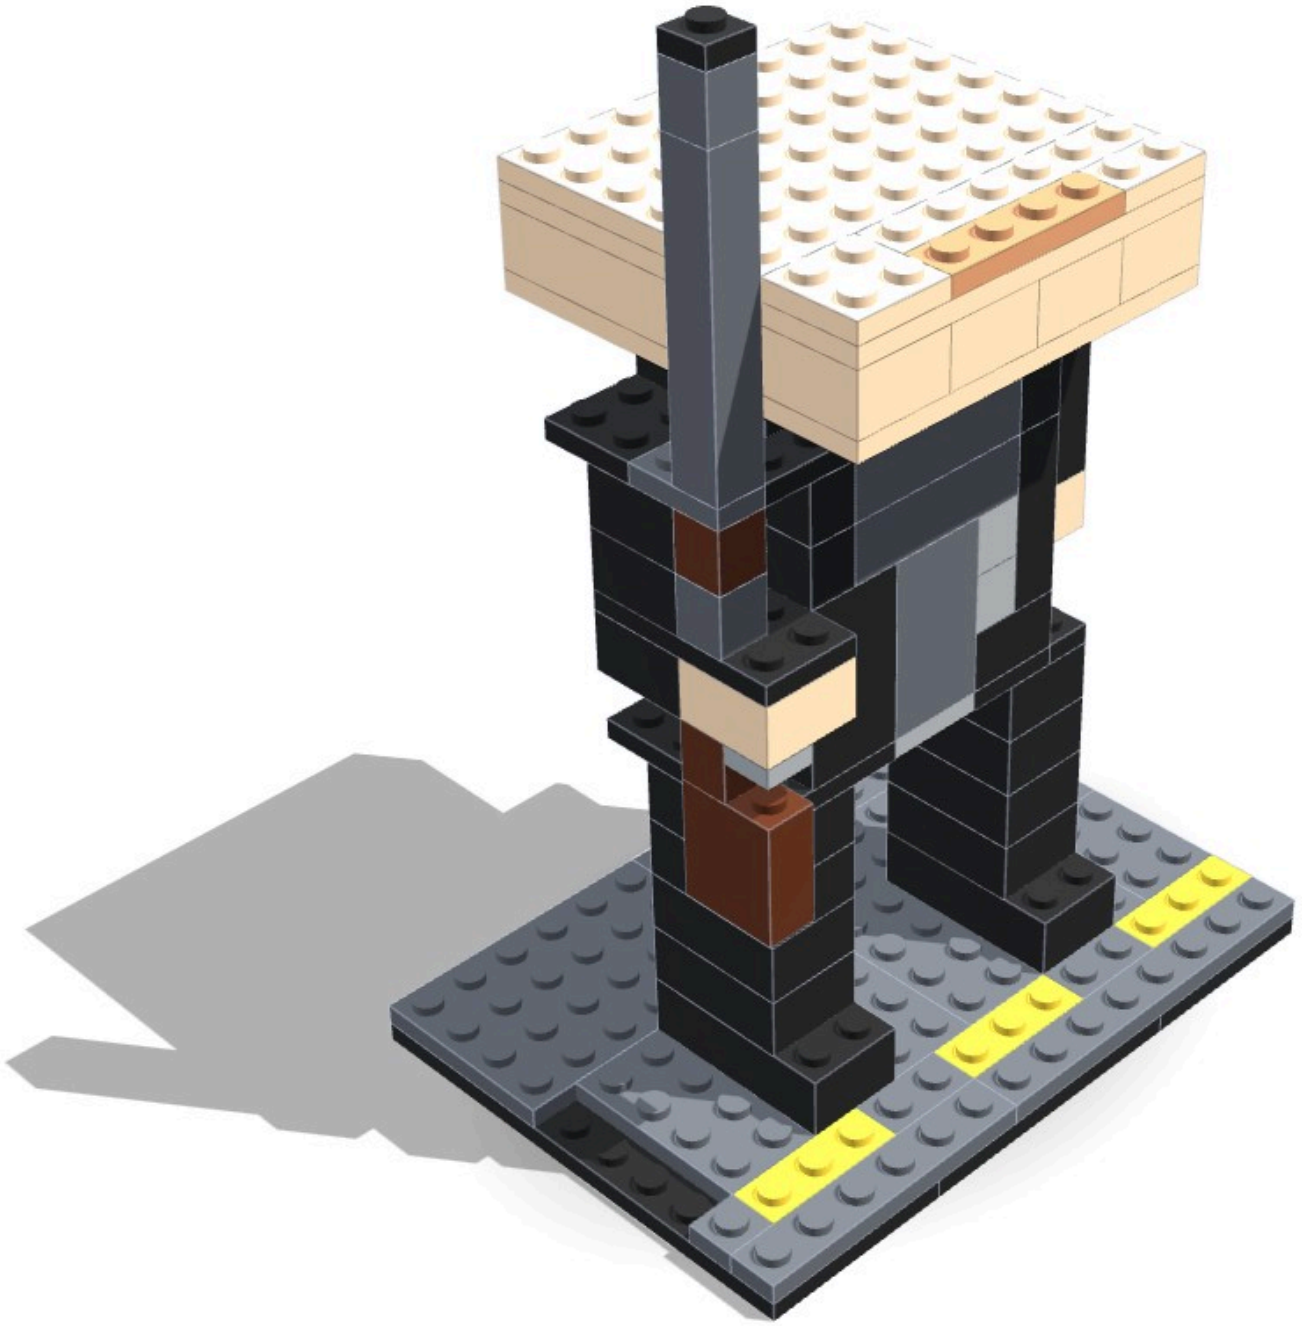

STEP

12

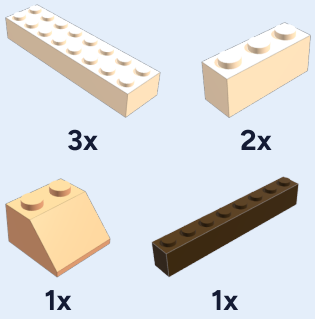

Jaw and mouth

The head is a big 8 × 8 block. Start with a light nougat plate, the square jaw, and a nougat 1×4 for the straight mouth.

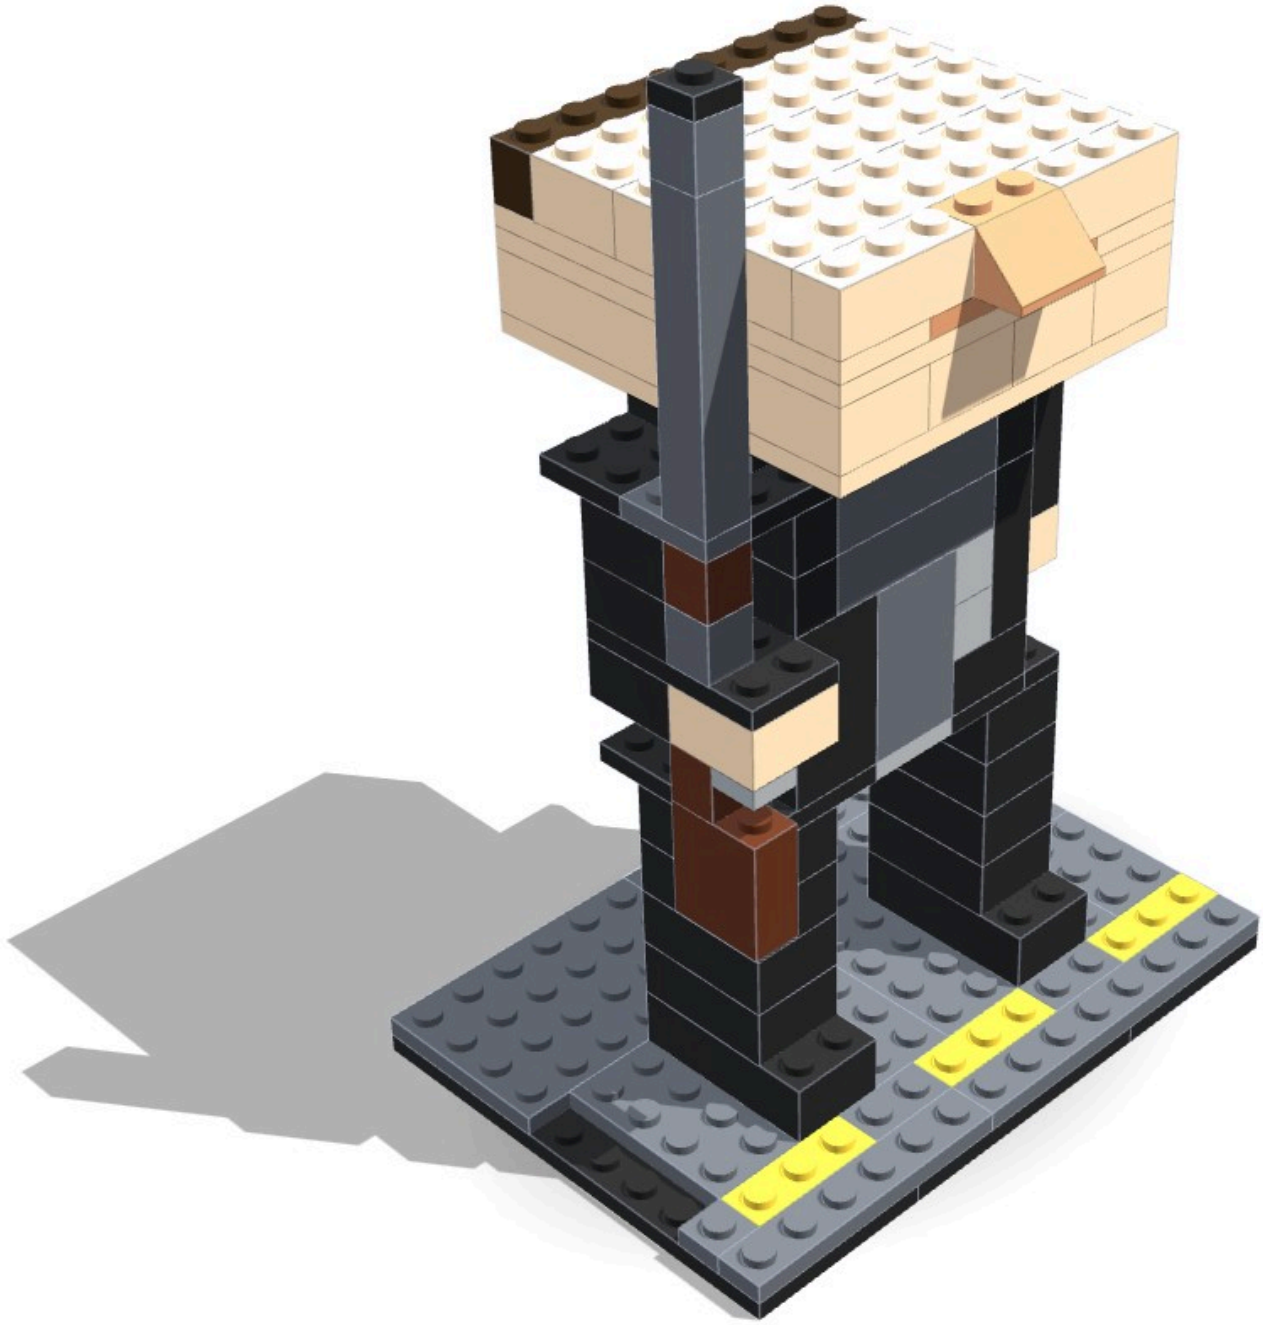

STEP

13

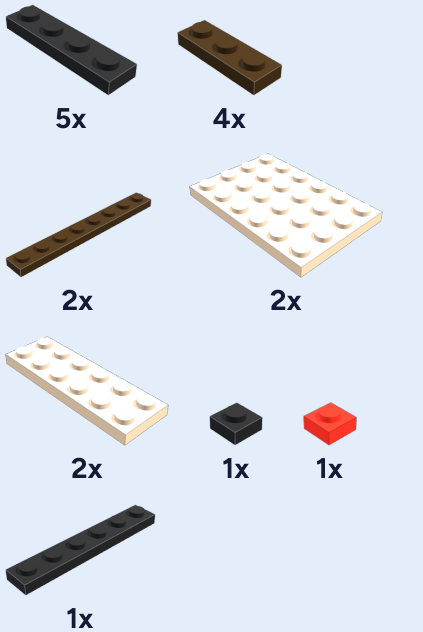

Nose and cheeks

A nougat 2×2 slope makes the nose: it sticks out one stud and slopes back up to the face. Light nougat bricks fill the rest of the layer.

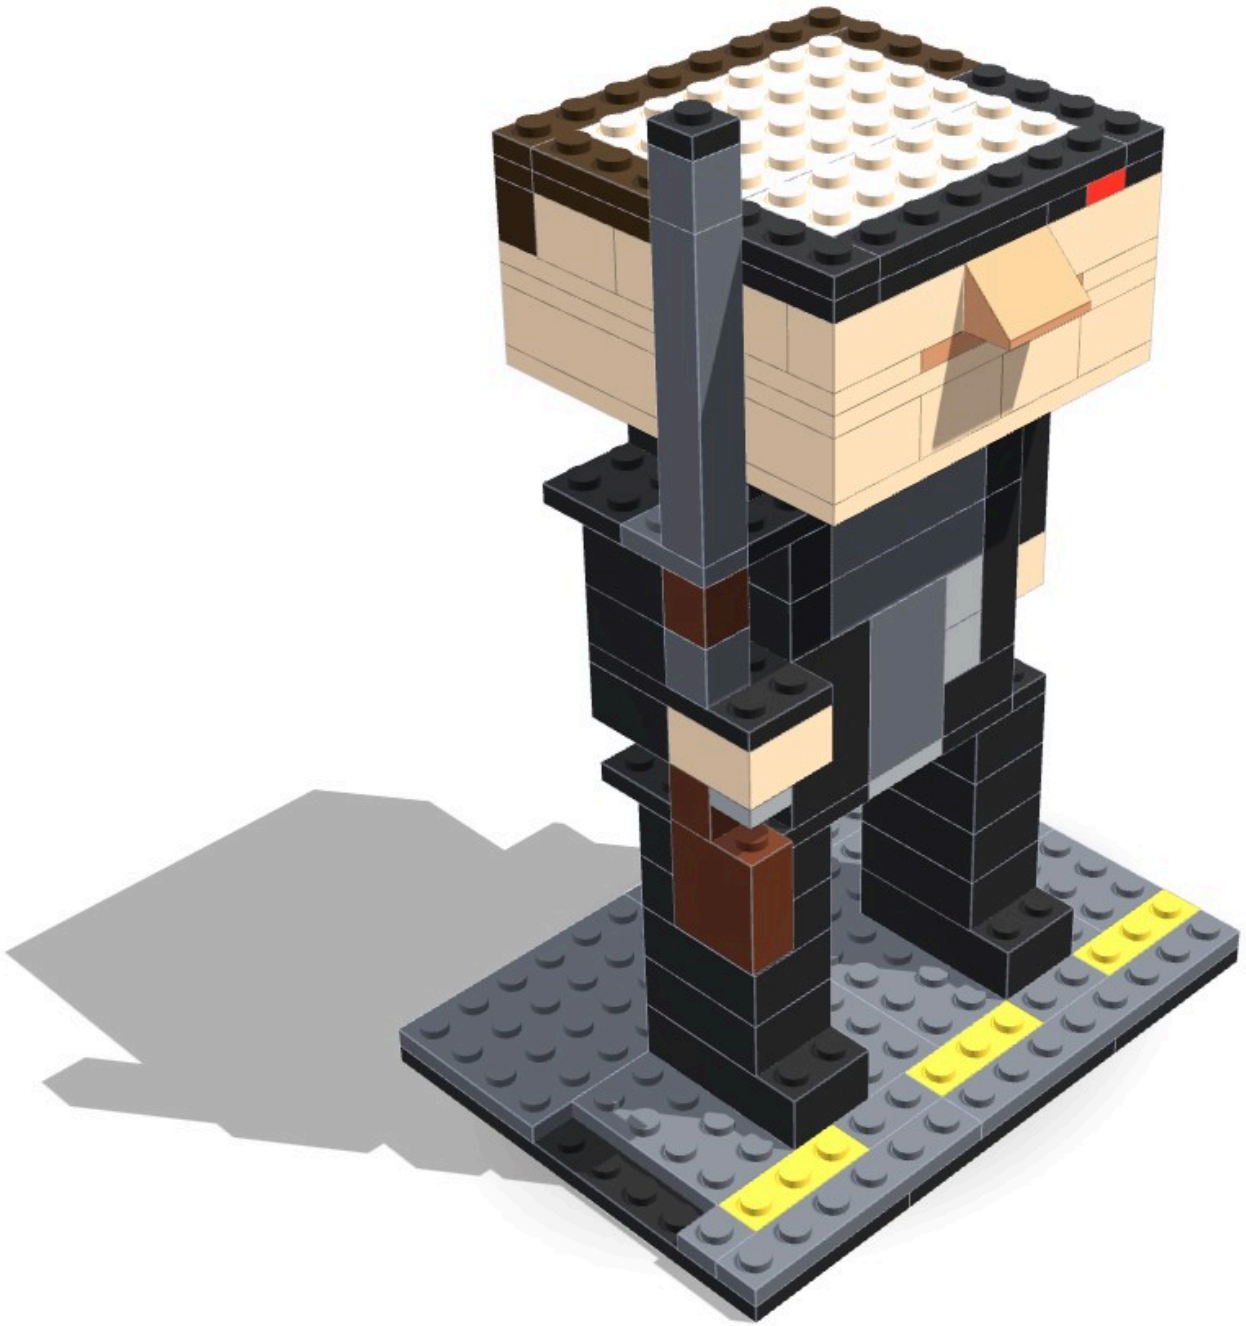

STEP

14

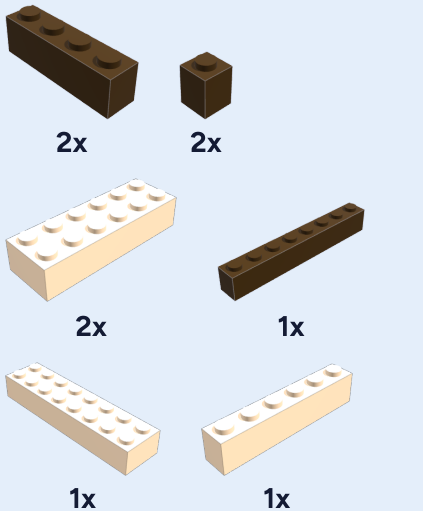

Sunglasses

Two black plates make the slim wraparound sunglasses: across the face and back along both temples. One trans-red 1×1 sits at the edge of his left lens. Switch on Night and it glows.

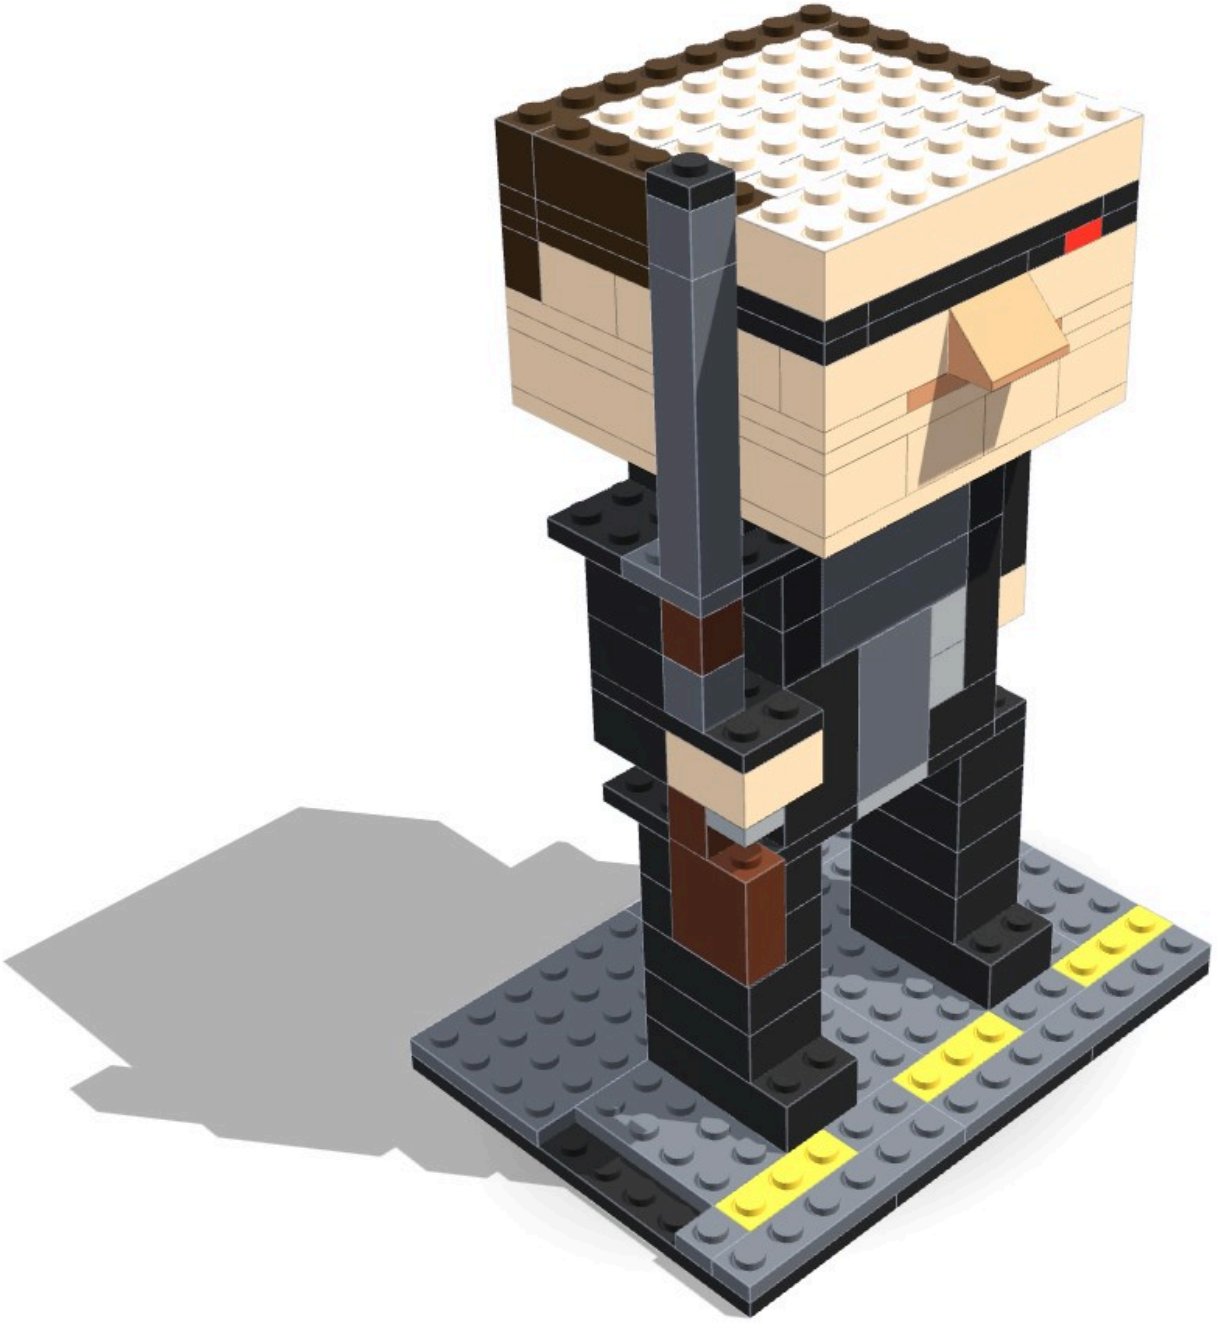

STEP

15

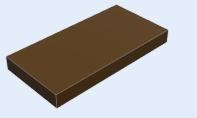

Forehead

One layer of forehead, with the short dark brown hair already at the temples and the back of the head.

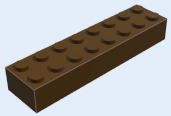

STEP

Flat-top

A layer of dark brown bricks, a dark brown plate layer, then 2×4 tiles on top: short hair, cut flat, the way it is in the film.
